

Over the course of the next few days, and maybe weeks, the Town of River Bend will be providing daily mosquito spraying activity. We will only be spraying when weather conditions are suitable for spraying. Our hours of operation will be from 6-8 a.m. and 6-8 p.m. We cannot tell you an exact time of day that we will be spraying on your street or in your neighborhood. We will only be spraying along streets. We will not go onto private property. As in the past, we will be spraying the product BIOMIST 3+15. It is especially designed for residential spraying. A copy of the label can be seen at the link:

<https://www.clarke.com/filebin/productpdf/biomist315.pdf>

For bee keepers, it should not have any impact on your hives because we will be spraying when the bees are typically in the hives. Read the label for information about bees. It is your responsibility to protect your bees. Our primary concern is suppressing mosquitos for the benefit of humans.
