

## **Trash Collection Information Following Hurricane Florence**

Craven County will resume regular curbside household trash collection routes on Friday, September 21, 2018. This will be for regular trash collection, not for hurricane debris. Dispose of only what you would typically put in your trash can on any given Friday. Trash placed at curbside will require the usual \$3.00 refuse sticker for every 33 gallons in order to be collected.

On Thursday, September 20, 2018, the seven Craven County Convenience Sites will reopen. Residents are encouraged to bring their residential vegetative hurricane debris to any of the sites. Convenience Sites will also accept household bagged refuse without a sticker until further notice.
