

FEMA Flood Damage Assessments

We have been informed that FEMA will have a team in River Bend by Wednesday of next week (10-9-18) to assist us. The team will be here, going door-to-door to help assess flood damaged homes. They will be wearing FEMA credentials and they are here to help flooded River Bend residents at our request. Please cooperate with them. Once they have completed their assessment, we can use their data to determine if we can issue permits to rebuild. Their help should greatly speed up the process.
