DISCUSSION - Amendment to Chapter 9.01 Animals

Councilman Sheffield stated that he was absent during the work session February 11, 2021 when this ordinance amendment was discussed. He stated that he had one concern with the amendment related to the quantity of horses allowed per acre. The Manager explained that the map highlighted all current lots in Town, not owned by the Town, that were at least 8 acres in size and could be used to keep horses if the proposed amendment was adopted. He further explained that the number on each lot represents its size in acres and the maximum number of horses allowed on it if the amendment was kept at one horse per acre. He further stated that the golf course was indicated in yellow and up to 141 horses could be kept on that lot. All other lots are indicated in green. Councilman Sheffield suggested changing the amendment to one horse per two acres. He also stated that the Planning Board has not made any suggestions on this topic. Councilman Leonard asked the Manager if the quantity per acre change will effect other properties in the Town. The Manager stated that it will only limit the quantity of horses allowed per acre on properties that are 8 acres or larger as indicated on the map. The Manager stated that the suggested change to one horse per two aces would cut in half the numbers on the map. (see attached)

Vote - Amendment to Chapter 9.01 Animals

Councilman Sheffield motioned to approve the amendment to Chapter 9.01 as presented. The motion passed with four ayes (Sheffield, Van Slyke, Fogle, and Maurer) and one nay (Leonard). (see attached)

MAYOR'S REPORT - Mayor Kirkland

The Mayor stated that he attended a meeting on February 13th presenting the issues surrounding installation of fiber optic internet cable in the New Bern area. The need for this infrastructure has been called into focus by the COVID-19 pandemic and the need for virtual classroom education for public school students. The failure to have the fiber optic infrastructure has caused the education effort to fail many students. There is a movement taking place nationwide and even globally, where business centers are relocating out of large cities. These relocating industries need the fiber optic infrastructure and will search for rural locations that can furnish that capability. In North Carolina, the area east of interstate Highway I-95 does not have that asset and will be bypassed until the needed infrastructure is provided. Effective installation of the fiber optic connection needs to flow from county to county and the area must come to recognize that the benefits of this installation will benefit all in the area of new corporate presence, even those located in an adjacent county. It is a different time and the new time demands a different attitude toward regional planning.

PUBLIC COMMENT

Mr. Kim Price addressed the Council and stated that he intends to purchase 18 acres on Old Pollocksville Road, and would like to have horses for his family for recreational purposes only.

CLOSED SESSION

Councilman Sheffield moved to go into a Closed Session under NCSG §143-318.11(a)(3) to consult with the attorney. The motion carried unanimously. The Council entered Closed Session at 7:56 p.m.

OPEN SESSION

Councilman Sheffield moved to return to Open Session at 8:18 p.m. The motion carried unanimously.

ADJOURNMENT/RECESS

There being no further business, Councilman Sheffield moved to adjourn. The meeting adjourned at 8:19 p.m.
