## Budget Message

Honorable Mayor and Members of Council  
Town of River Bend, North Carolina:

May 28, 2026

Pursuant to Section 159-11 of the North Carolina General Statutes, the Town of River Bend's proposed budget for the Fiscal Year (FY) beginning July 1, 2026 and ending June 30, 2027 is hereby submitted for your consideration. This budget represents the commitment of the Council to the vision statement and responds to the goals the Council discussed at the Budget Kick-Off meeting on January 15, 2026 and adopted on February 12, 2026:

1. Continue to provide a safe, dynamic, and attractive community for people of all ages, and continue to address the changing demographic composition of the Town.
2. Continue to provide safe drinking water and quality treatment of wastewater by diligently maintaining current systems, prudent fiscal management and prioritizing efforts to build new systems.
3. Continue to operate wastewater treatment facilities to maintain regulatory compliance and serve the current and future needs of the Town.
4. Continue to work with advisory boards as a means to encourage citizen participation in Town government.
5. Continue to be good stewards of the natural environment through planned stormwater and floodplain management efforts.
6. Continue to cooperate regionally and with other municipalities and, where appropriate, share ideas and resources.
7. Maintain a commitment to the Council-Manager form of government, and to support an adequate and well-trained staff to serve the current and future needs of the community.
8. Continue to employ sound fiscal management practices to ensure the long-term financial viability of the Town.
9. Maintain a visionary posture, acknowledging that change is inevitable.
10. Continue to conduct the business of the Town with complete transparency and integrity.

Over the course of four budget workshops in April and May and following numerous hours of staff research and development, this budget was explained in detail and each expenditure and revenue item considered relative to the long-term goals of this community. This document includes the terms agreed upon by Council during the budget workshops. The uncertainty created by inflation, the war in Iran and state-level politics impacted the budget process. As of today, it is still unknown how long and to what degree inflation, high gas prices and possible property tax regulations will be impacting our town, state and nation. As always, two major considerations during budget preparation are the tax rate and utility rates. After reviewing all proposed expenditures and revenues, and considering the economic outlook, the originally proposed budget included no change to the tax rate. However, after reviewing the proposal, the majority of Council agreed to

Town of River Bend, North Carolina  
Annual Budget for Fiscal Year 2026-2027

---

include a tax rate increase of 2¢, which would increase the tax rate to 30¢. The water and sewer rates remain unchanged.

The annual budget process is influenced by external factors including the condition of the national, state, and local economies, and the needs identified in our community by the elected body, staff, and advisory boards, and the goals noted above. All these factors are considered in this budget and armed with the knowledge that this document represents a significant amount of careful consideration and study, we are confident that it will allow the Town to meet its obligations, fulfill its goals, and remain fiscally strong.

**Overview**

The budget being presented for your consideration is balanced in accordance with the North Carolina Local Government Budget and Fiscal Control Act. The total operating budget for the three major funds are:

General Fund	\$ 2,995,400
Water Fund	\$ 744,500
Sewer Fund	<u>\$ 802,700</u>
 Total Operating Budget	 \$ 4,542,600

In addition to the three major operating funds noted above, the town also has four minor funds that we operate for accounting purposes. They are - Capital Reserves for the General Fund (\$229,425), Water Fund (\$25,850) and Sewer Fund (\$36,250), along with a Law Enforcement Separation Allowance Fund (\$1,100). The total allocation to these four funds in FY27 is \$292,625 and they are listed separately in the budget ordinance.

The grand total for the Fiscal Year 2026-2027 budget is **\$4,835,225**.

**General Fund**

The General Fund is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund. This fund is established at the inception of a government and exists throughout the government's life. Expenditures are divided into functional departments in order to present a clear understanding of the costs of providing certain services. Personnel assigned to a specific functional area are paid from that department. We use a labor allocation formula to more accurately reflect the work being performed by each staff member within each of the three major funds.

The total expenditure budget for the General Fund, including transfers, is \$2,995,400. Overall, General Fund spending increased \$287,605 as compared to the amended FY 25-26 budget (as of April 9, 2026). Revenue, as required by law, is balanced with the expenditure portion of the budget. This budget contains an appropriation from fund balance of

---

\$298,996, which is a \$93,116 or 45% increase from the amended FY 25-26 fund balance appropriation of \$205,880.

### **Expenditure Highlights by Department**

While not attempting to cover specifics for all of the seventeen (17) departments within the General Fund, what follows are some highlights of the more significant expenditures and programs being proposed for FY 26-27. This year's proposed budget keeps capital spending at a relatively low level of \$224,900 following capital spending of \$151,344 during the FY 25-26 budget.

Street Maintenance: The Town owns and maintains over 17 miles of streets. Each year our engineer reviews an evaluation he performed of all our streets in order to determine the priority for our paving funds. Powell Bill funding is used to support street maintenance. It is appropriated by and received from the State based upon our population and number of miles of town-maintained roads. This revenue source has been relatively level in recent years, while costs continue to escalate.

This year we are budgeting \$229,300 to follow the plan developed by our engineer to maintain the integrity of our roadways. Historically, the total amount we expect to pay for contracted paving services exceeds the amount we expect to receive in Powell Bill funds; therefore, local revenue will be utilized to complete these projects.

Stormwater: We have allocated \$32,000 of funding within the stormwater Capital Improvement Plan (CIP), but have no specific project identified.

Public Buildings (Facilities): We plan to continue our efforts to be good custodians of our public facilities by making a few needed repairs and some modest improvements.

Public Works: The Department of Public Works pays for, among other items, the cost to operate streetlights and the cost to operate and maintain two vehicles.

Parks and Recreation: The budget being presented includes continued funding for our Parks and Recreation programs. Excluded from the Parks and Recreation budget again this year is funding for the River Bend Community Organic Garden. It is an educational community garden operated and maintained by a group of volunteers but functions as a component of Parks and Recreation. The budget contains \$88,000 for the construction of two pickleball courts.

Police: Expenditures for the Police Department include salaries and benefits for seven full-time and multiple part-time officers, vehicle maintenance, uniforms, fuel, 1 new vehicle, equipment, Community Watch and more. We provide 24/7/365 police presence within the Town. The Police Department's budget of \$885,900 is the largest in the General Fund, representing 29.58 % of General Fund expenditures.

---

Elections: Due to a recent Town Charter amendment, the town's municipal elections were moved to even-numbered years. This change resulted in a substantial reduction in the town's cost for elections. The first election under this new format was held in November, 2022. The next town election will be held in November, 2026.

Governing Board: This year's budget contains \$40,000 to fund special projects that may receive Council approval during the fiscal year.

Throughout the budget process, Council and staff were mindful of the need to control costs while continuing to provide necessary services and maintain our infrastructure. Our efforts resulted in budgeted expenditures that are quite lean while maintaining the current level of services.

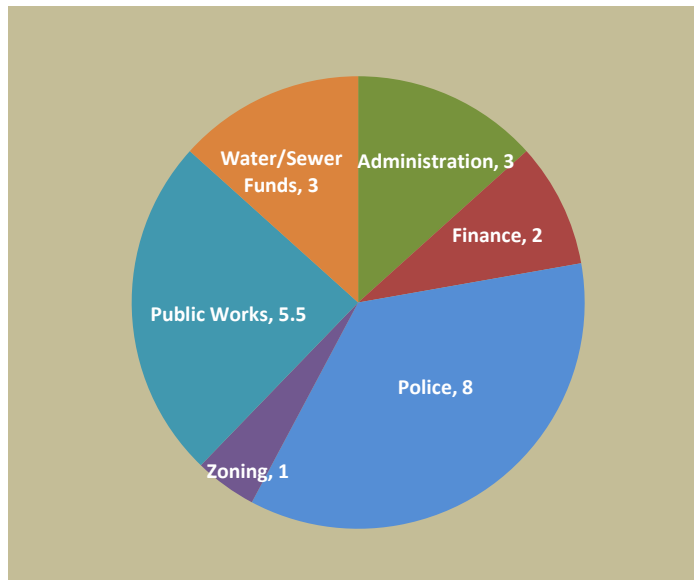

Requested projects and expenditures were kept to a minimum in order to develop a balanced budget and operate with no significant increases in taxes or fees. The revenues from some of the transfers are budgeted to be allocated in various CIPs in the General Fund in order to provide more long-term stability for those plans.

**Expenditures by Category**

The North Carolina Local Government Commission (LGC) collects, maintains and compares financial data from all municipal governments in North Carolina.\* For comparison purposes, they group towns by population. This prevents small towns, such as River Bend, from being compared to large towns, such as Raleigh and Charlotte. They also separate towns that own electrical distribution systems, from those that do not own electrical distribution systems. We fall into the 2,500-9,999 population group that do not operate an electrical distribution system. There are 129 towns in our reporting group. In addition to lots of other data, the LGC compares the per capita expenditure for six functions for each town. Those six functions are: Public Safety, Transportation, General Government, Utility, Debt Service and Other. The 2025 data, (the most recent data from the LGC) is shown in the chart below. More LGC data begins on page 32.

Function	Average Per Capita Expenditure of Group	River Bend Per Capita Expenditure
Utility	\$517	\$354
Debt Service	\$136	\$88
Transportation	\$167	\$81
General Government	\$329	\$220
Public Safety	\$608	\$290
Other	\$435	\$183
<b>Total</b>	<b>\$2,192</b>	<b>\$1,216</b>

One of the largest expenditures for River Bend and for most localities is the cost of personnel. We have 21 full-time employees and 3 part-time positions, or 22.5 full-time equivalents (FTE). Our total personnel costs account for 47% of the combined operating budgets of the General and Enterprise Funds. This chart shows the number of FTE employees working in each department. It does not, however, show the allocation of labor between the General Fund and Enterprise Funds that we use to account for work done outside of an employee's primary department. We use allocations in order to arrive at a more accurate cost of providing certain services and these allocations were examined as this budget was prepared. A detailed allocation table was provided during the budget workshops.

---

Through operational efficiencies in the utilization of personnel, leveraging technology to mitigate staffing increases, receiving many hours of volunteer assistance, and other management strategies, we are able to maintain a staffing profile below that of comparable localities. In fact, according to 2025 data from the North Carolina Local Government Commission, River Bend's per capita expenditure for salaries and wages was \$453, which is \$133 less than the average of our peer group, which was \$586.

This budget, following the guidance of the Council, through their continued support of our compensation plan, includes a 2.2% cost of living allowance and a 1% longevity increase, both are only for eligible employees in accordance with the plan. An additional merit pool is available to be used to recognize outstanding performance of individual employees.

### **Sources of Revenue**

Excluding fund balance appropriation, General Fund revenues are budgeted at \$2,696,404. Fund Balance appropriation in the General Fund for FY 26-27 is \$298,996 which is a increase of 45% vs. last year's budgeted amount of \$205,880.

The General Fund receives revenue from several sources, the largest of which is Ad Valorem taxes. Ad Valorem, from the Latin phrase meaning "according to value," is levied upon the property, and measured by the value of the property, not the owner's ability to pay. While important, Ad Valorem tax revenue is forecast to generate \$1,407,048 or only 47% of the revenue for our General Fund in FY27. Of that amount, \$153,000 is attributable to taxes on motor vehicles. That means that more than half of the services that we provide in the General Fund are paid for with sources other than local property tax revenue. State law limits the rate a locality may charge for this tax to \$1.50 per \$100 of valuation. Currently, the North Carolina General Assembly is considering legislation which would impose restrictions on a municipality's ability to raise their tax rate. Our proposed tax rate is 30¢, which is a 2¢ increase. The property value is expected to increase by nearly \$7,000,000 vs. last year, which generates about \$21,000 in additional tax revenue.

According to the North Carolina Local Government Commission, the average tax rate among municipal governments in our group for Fiscal Year 2024, (the latest available data) was \$0.3058 per hundred. At that time, our tax rate was \$0.24 per hundred. The range was \$0.0275 to \$0.89 per hundred. River Bend contracts with the Craven County tax office to collect our taxes. This enables our residents to receive one tax bill and remit payment to one place. It also allows us to enjoy an excellent collection rate for real and personal property taxes. In FY 26-27, we budgeted for a collection rate of 99.67%.

The next largest source of revenue comes from our share of the sales tax that we all pay. Local sales tax revenue increased moderately during FY26. We expect that trend to continue in FY27. These are essentially two tax types: the Sales Tax on the retail sale or lease of tangible personal property, services, the rental of hotel rooms, and the Use Tax, which is an excise tax on the right to use or consume property in North Carolina or elsewhere. All taxes are pooled by the State and shared, in accordance with statutory

---

formulas, by all 100 counties. Each county, in turn, shares their portion of the sales tax proceeds with the incorporated cities and towns in that county.

In addition to sales tax revenue, the Town also receives revenue from the State reflecting our statutory portion of tax revenues from telecommunication services, video programming, beer and wine sales, and others. With the exception of funding received under the terms of the Powell Bill, State revenues can be used for any legitimate government function. Powell Bill funding, by law, is restricted for uses related to the maintenance of streets. Historically, River Bend uses 100% of this funding to continue to follow our Roadway Evaluation Survey.

### **Fund Balance**

The North Carolina Local Government Commission (LGC) monitors the level of fund balance each unit maintains as a sign of their relative financial strength. Sufficient fund balance is essential to ensure a unit of local government has ample funds to respond to emergencies and opportunities. While not official, the historical benchmark for fund balance that many units recognize as the minimum is 8% of total expenditures. If a unit approaches that level, the LGC may express concern to the unit and direct action to increase the balance. Our audit shows we ended FY25 with a fund balance of \$1,475,445 or approximately 66%. The policy set by the Town Council is to maintain a fund balance of at least 50% of total expenditures. Our unaudited projection for fund balance at the end of FY26 is 56%. According to June 30, 2024 LGC data (the latest available data) the average fund balance for our peer group (Those with General Fund Expenditures of \$1,000,000-\$9,999,999) was \$4,017,422, or 101.42%. The fund balance for River Bend for that same period was \$1,334,306 or 65.72%. I believe the dollar amount of fund balance is more important than the percentage of fund balance. I often say, "Percentages do not pay the bills, dollars do." Also, the average tax rate for this group was 30.58¢. At that time our tax rate was 24¢. There were 171 towns in this group. Only 33 of those levied a lower tax rate than River Bend. The average population for the group was 3,466.

### **Enterprise Funds**

In addition to the General Fund, covering all typical government operations, the Town of River Bend operates two enterprises: the water system and the sewer system. These two enterprises are operated as businesses by having all revenues and expenditures accounted for separately from other functions of the Town and by having rates established that cover all expenditures of the enterprise. River Bend purchased these two businesses from a private company, Carolina Water Service, in 1995. As a result of this purchase, a significant portion of the revenue we receive is dedicated to cover the debt incurred and amortized with annual payments which will end in FY27 with this budget.

In FY 2013, we refinanced the debt in order to take advantage of interest rates that were more favorable than we had in our prior debt structure. The result of this effort was a

savings of nearly \$300,000 over the remaining life of the debt. Following a 2021 review, our Standard & Poor's rating was AA+. Following a 2023 review, our Moody's rating was Aa3. Both ratings remain the same today. These ratings are further evidence of good financial performance.

### Water Enterprise Expenditures

Expenditures in the Water Fund are divided according to function. There are costs specifically associated with supply and treatment (taking the water from the ground and treating it to make it safe to drink) and costs associated with distributing it to the customer. Other costs, in the administration and finance area, include personnel, vehicles, office rent, utilities, and bond debt service.

As noted earlier, debt service is a large expenditure for this enterprise and is divided from the Administration and Finance department in the chart to illustrate its proportion to overall expenditures. The total budgeted expenditure for the water enterprise in FY26-27 is \$744,500, an increase of \$31,700 or 4.4% from the current, as amended, fiscal year budget. The graph to the right shows the percentage of the expenditures that each department represents within the Water Fund.

The chart below shows the comparison of the current budget vs. the proposed budget.

Water	25-26	26-27	Change v. prior year	
	Budget	Proposed	%	\$
Administration & Finance	530,625	550,700	3.78%	20,075
Supply & Treatment	101,500	87,000	-14.29%	-14,500
Distribution	60,175	81,300	35.11%	21,125
Transfer to Capital Reserve Fund	20,500	25,500	24.39%	5,000
<b>TOTAL (including CIP)</b>	<b>712,800</b>	<b>744,500</b>	<b>4.45%</b>	<b>31,700</b>

**Sewer Enterprise Expenditures**

Similar to water expenditures, those for the sewer enterprise are also divided according to function. Costs specifically associated with collection (pipes and lift stations) are separated from those associated with operating the wastewater treatment plant. Other costs, in the administration and finance area, include personnel, vehicles, office rent, utilities, and bond debt. As noted earlier, debt service is a large expenditure for this enterprise and is divided from the Administration and Finance department in the chart to illustrate its proportion to overall expenditures. The total budgeted expenditure for the sewer enterprise in FY26-27 is \$802,700, a \$14,150 or 1.79% increase from the current, as amended, fiscal year. The graph above shows the percentage of the expenditures that each department represents within the Sewer Fund.

The chart below shows the comparison of the current budget vs. the proposed budget.

Sewer	25-26	26-27	Change v. prior year	
	Budget	Proposed	%	\$
Administration & Finance	533,650	559,000	4.75%	25,350
Collection	88,100	67,400	-23.50%	-20,700
Treatment	141,300	140,800	-0.35%	-500
Transfer to Capital Reserve Fund	25,500	35,500	39.22%	10,000
<b>TOTAL (including CIP)</b>	<b>788,550</b>	<b>802,700</b>	<b>1.79%</b>	<b>14,150</b>

**Enterprise Fund Revenue**

The budget for these two enterprises received attention in our budget workshop sessions with proposed revenues for current and future years being scrutinized in light of anticipated expenditures. We are fortunate to have a professionally designed rate model for each utility so the impact of the proposed expenditures can be compared to revenue at various rate levels. Based upon the proposed expenditures, proposed revenues from user fees and cash balance, the water utility rates will not change for FY 26-27. Likewise, both

---

current and future revenues and expenditures for sewer were considered during the budget work sessions. The sewer utility rates will not change in FY 26-27. Projections indicate that the current rate structure, combined with conservative expenditures, will allow both utilities to maintain a reasonably adequate level of reserves to respond to emergent needs if they arise during the year and through FY30-31. The cash balance in both funds was substantially reduced in FY 23 due to each fund contributing \$515,879 to fund their portion of the cost of the new Public Works Building. Due to that project being completed under budget, part of that funding was returned to both funds. Each year, the Council looks at current and long-range needs of both systems. Next year, the Council will review the funds and consider any necessary changes to keep the funds sound.

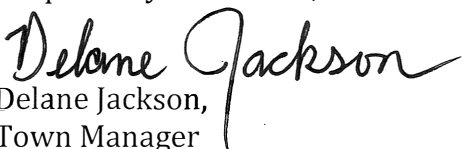

### **Conclusion**

It is important to concentrate our annual budgeting efforts on maintaining current levels of services and maintenance of Town-owned property and infrastructure, while attempting to maintain a low tax rate and avoid substantial increase in fees and look for ways to expand amenities when possible. In my opinion, the budget being presented for your consideration accomplishes those goals. Each year we are faced with different challenges and opportunities. This year, inflation and the war in Iran are having substantial impacts on our national, state and local economies and budgets. A considerable amount of discussion was devoted to the difficulty of predicting such effects on the town's FY 26-27 budget. Also, this year, the North Carolina General Assembly is advancing legislation which could result in future restrictions on the ability of local governments to increase their tax rate.

Maintaining our critical infrastructure and essential services comes at a cost, and River Bend, like towns throughout the State, must manage in a fiscal climate marked with a still uncertain economy. Town Council members should accept their responsibility with great conviction and sincerity and strive to be well-informed and engaged as they exercise their legislative role in the operation of this government. This budget reflects the Council's commitment to maintaining and improving this community and positioning it to be financially sound in the future. I believe it to be worthy of your consideration and approval.

I thank the Mayor, Town Council, and Town staff for their commitment to and participation in this budget process. I want to recognize the considerable contributions of Mandy Gilbert, our Finance Director, in the development of this year's budget. However, every member of the staff at Town Hall, along with the Department Heads, contributed in some degree to the budget development process. This annual budget represents a true team effort as we all work to preserve the future of this great community. The legally required Public Hearing for the Proposed FY 26-27 Town Budget is scheduled for June 11 at 5 p.m.

Respectfully Submitted,

  
Delane Jackson,  
Town Manager

---

**Proposed Annual Budget Ordinance**

BE IT ORDAINED by the Council of the Town of River Bend, North Carolina that the following anticipated fund revenues and departmental expenditures, together with certain fees and schedules, and with certain restrictions and authorizations, are hereby appropriated and approved for the operation of the Town government and its activities for the fiscal year beginning July 1, 2026 and ending June 30, 2027:

**Summary**

General Fund	2,995,400
General Capital Reserve Fund	229,425

**Section 8. Levy of Taxes**

There is hereby levied a tax at the rate of twenty-eight cents (\$0.30) per one hundred dollars (\$100) valuation of property as listed for taxes as of January 1, 2026, for the purpose of raising the revenue listed "Ad Valorem Taxes 2026-2027" in the General Fund Section 1 of this ordinance. This rate is based on a valuation of \$419,400,000 for purposes of taxation of real and personal property with an estimated rate of collection of 99.67%. The estimated collection rate is based on the fiscal year 2024-2025 collection rate of 99.67% by Craven County who has been contracted to collect property taxes for the Town of River Bend. Also included in this rate is a valuation of \$51,000,000 for purposes of taxation of motor vehicles with a collection rate of 100% by the North Carolina Vehicle Tax System.

**Section 9. Fees and Charges**

There is hereby established, for Fiscal Year 2026-2027 various fees and charges as contained in Attachment A of this document.

**Section 10. Special Authorization of the Budget Officer**

- A. The Budget Officer shall be authorized to reallocate any appropriations within departments.
- B. The Budget Officer shall be authorized to execute interfund and interdepartmental transfers in emergency situations. Notification of all such transfers shall be made to the Town Council at its next meeting following the transfer.
- C. The Budget Officer shall be authorized to execute interdepartmental transfers in the same fund, including contingency appropriations, not to exceed \$5,000. Notification of all such transfers shall be made to the Town Council at its next meeting following the transfer.

**Section 11. Classification and Pay Plan**

Cost of Living Adjustment (COLA) for all Town employees shall be 2.2% and shall begin the first payroll in the new fiscal year.

---

The Town Manager is hereby authorized to grant merit increases to Town employees, when earned, according to the approved Pay Plan.

**Section 12. Utilization of the Budget Ordinance**

This ordinance shall be the basis of the financial plan for the Town of River Bend municipal government during the 2026-2027 fiscal year. The Budget Officer shall administer the Annual Operating Budget and shall ensure the operating staff and officials are provided with guidance and sufficient details to implement their appropriate portion of the budget.

**Section 13. Copies of this Budget Ordinance**

Copies of this Budget Ordinance shall be furnished to the Clerk, Town Council, Budget Officer, and Finance Officer to be kept on file by them for their direction in the disbursement of funds.

Adopted this 18th day of June, 2026.

---

Mark Bledsoe, Mayor

Attest:

---

Kristie J. Nobles, Town Clerk

**Town of River Bend  
Schedule of Rates and Fees  
(Attachment A to Budget Ordinance)  
Effective July 1, 2027**

Amounts due are based upon the Fees and Charges Schedule in effect at the time of payment. It is the Town Council's intention that the Fees and Charges Schedule be revised as needed by July 1st of each year. Some fees and charges may be adjusted during the year as circumstances change.

**Special Charges**

<b>Service Call - 2 hour minimum</b>	\$35 per hour - signed by customer to initiate work outside of scheduled work hours of 7:00 a.m. - 4:00 p.m. on weekdays and 7:00 a.m. - 3:00 p.m. on weekends
<b>Meter Testing Charge</b>	\$25 - no charge if meter defective
<b>Returned Check Processing Charge</b>	\$25, as allowed by G.S. §25-3-506
<b>Late Payment Charge</b>	10% of amount overdue per month or part of month beginning 30 days after billing date
<b>Irrigation Connection Inspection</b>	\$20

(1) Residential customer deposit may apply. Please refer to Water Resources Department Policy Manual.

(2) Base charges do not include any usage.

(3) The published Initial Connection (Tap) charges are based on the historic River Bend average cost that has been experienced in making connections. There will be cases when, because of the local depth of the service main pipe to which the connection is to be made, or other site-specific differences from the norm, the published connection fee will not cover the actual cost of the tap. When the Water Resources Superintendent encounters such conditions, he shall notify the applicant requesting the tap that the cost may exceed the published fee. In those cases, a record of cost associated with the specific tap will be accounted for and if the total cost exceeds the published fee, then the applicant shall pay a fee equal to the actual cost. Initial connection charges are based upon the size of the meter and charged as shown in the appropriate Class above.

(4) The necessary equipment will be provided to the resident at cost. The resident is responsible for installing the irrigation meter on the resident's side of the regular water meter. After installation, the work will be inspected by a Water Resources Department employee.

## Budget "Snapshot"

What follows is a brief "snapshot" of the budgets of all three major funds. These are briefly explained in the Budget Message that precedes these pages and were discussed in detail during the budget sessions.

### General Fund Expenditures

The chart shown below summarizes, by department, the actual, budgeted, projected, and proposed expenditures in the General Fund for the previous two completed fiscal years, the current fiscal year, and the budget under consideration for next year. This allows the reader to see how expenditures change in each of these departments over the course of several years.

General Fund Expenditure Summary						Change v. prior year	
		23-24	24-25	25-26	26-27	%	\$

Transfer to Capital Reserve Fund	0	25,000	25,500	35,500	39.22%	10,000
Transfer to Sewer AIA Grant Project	0	5,000	0	0	0.00%	0
<b>TOTAL (including CIP)</b>	<b>639,147</b>	<b>704,643</b>	<b>788,550</b>	<b>802,700</b>	<b>1.79%</b>	<b>14,150</b>

This chart shows the percentage each revenue type is anticipated to contribute to the total received by this enterprise in the next fiscal year.

**What Will I Pay?**

This table shows the real estate tax one would pay based upon the assessed value of their property.

To calculate your actual Town tax, multiply the total assessed value of your property by 0.0030. This will show what you pay for the General Fund services that the Town provides.

According to the Craven County Tax Department, the current (April, 2026) average assessed value of a home in River Bend is \$247,519 (note highlighted data).

Assessed Value	Annual Bill at 0.30
95,000	\$285
125,000	\$375
247,519	\$743
190,000	\$570
200,000	\$600
250,000	\$750
300,000	\$900
350,000	\$1,050
400,000	\$1,200
500,000	\$1,500
600,000	\$1,800

During the course of the budget workshops, the Council dedicated a considerable amount of discussion to the town’s tax rate. The chart below was presented and discussed during the budget workshops. It shows the impact of the tax rate increase on the tax bill for various property values. The highlighted value represents the average residential property value. It shows the tax rate increase will increase the tax bill on the average property by \$49.50, which is less than \$1.00 per week. For comparison, a \$1,000,000 property will see a \$200.00 increase in its tax bill, which is less than \$4.00 per week.

5/14/2026 EFFECT OF TAX RATE CHANGE			
Property Value	Tax Bill at \$0.280	Tax Bill at \$0.300	Change in bill
\$100,000	\$280.00	\$300.00	\$20.00
\$180,283	\$504.79	\$540.85	\$36.06
\$247,519	\$693.05	\$742.56	\$49.50
\$300,000	\$840.00	\$900.00	\$60.00
\$400,000	\$1,120.00	\$1,200.00	\$80.00
\$500,000	\$1,400.00	\$1,500.00	\$100.00
\$600,000	\$1,680.00	\$1,800.00	\$120.00
\$1,000,000	\$2,800.00	\$3,000.00	\$200.00

The following table shows water and sewer rates and their effect upon a residential customer using 3,000 gallons per month. The proposed rates represent no changes in the rates that are in effect as of today. The FY27 budget will replace the Hydrant Fee with an Availability Fee. That change in terminology will not create an increase in fees. Essentially, it will only result in regular bi-monthly billing for previous hydrant customers. This change is necessary to give the town legal authority to collect delinquent accounts. Business, commercial, and industrial base rates and fees are different from the residential base rate and fees. In FY 25, the average water customer used 3,110 gallons of water per month.

Charges for 3,000 gallons per month		
	Current	Proposed
<b>Water</b> Base	15.24	15.24
Use	12.66	12.66
<b>Sewer</b> Base	24.18	24.18
Use	27.90	27.90
<b>Monthly</b>	<b>79.98</b>	<b>79.98</b>
<b>Per-Bill</b>	<b>159.96</b>	<b>159.96</b>
Monthly Difference		<b>0.00</b>
Per Bill Difference		<b>0.00</b>

Annual Costs	FY27	FY26	Change	%
Water/Sewer Fees (3,000 gal/month)	\$ 960	\$ 960	0	0.00%
Real Estate Tax (\$247,519 home)	\$ 743	\$ 693	50	7.15%
<b>TOTAL</b>	<b>\$ 1,703</b>	<b>\$ 1,653</b>	<b>50</b>	<b>3.00%</b>
Average Per Day Cost for water/sewer/tax	\$ 4.66	\$ 4.53	\$ 0.14	3.00%

The table above combines the cost of real estate taxes and the cost of water and sewer to show the total amount an average resident of River Bend would pay in a year for real estate taxes on a home valued at \$247,519 and water and sewer fees for 3,000 gallons usage per month. For \$4.66 per day, our average water and sewer user, living in our average valued home, receives potable water, wastewater treatment, 24/7 police protection, stormwater management, animal control, planning, zoning, code enforcement, parks, recreational events, street lights, street maintenance, leaf & limb removal, and a host of other services. Our goal is to continue to deliver high quality services at a reasonable price to all who make River Bend their home. At last year's rates, the cost was \$4.53 per day. For the average resident, it will cost 14¢ more per day for these items in River Bend than it did last year. Inflation over the last year (April-April) was 3.8%. If our rate had only kept pace with inflation, the cost for these services in FY27 would have been \$1,716.

**Where are my tax dollars spent?**

This table breaks down the proposed tax rate to show how much of that rate is needed to fund each of the functions in the General Fund. The total proposed tax rate is 30¢ per one hundred dollars of assessed value. The figures shown represent the portion of the tax rate attributable to each department based on that department’s percentage of the overall general fund budget. For example, the Police Department’s budget represents 29.58% of the overall general fund budget in FY27. Therefore, 29.58% of the tax rate is equal to 8.873¢. It is important to note that property tax revenue represents only 47% of general fund revenues.

Department	Cents per Hundred
Governing Body	0.726

**North Carolina Local Government Commission – Expenditure and Revenue Per Capita Data \***

The North Carolina Local Government Commission (LGC) compiles data based upon a required independent audit and other reports submitted to them for review and approval. This data is collected from all counties and municipalities in the State and is reported by locality and offers comparisons for per capita expenditures and revenue with other similar localities. The following charts reflect the latest LCG data, which is as of June 30, 2025.

To make the comparisons fair, the LGC divides all municipalities into groups by population, and they further divide them into groups that do and do not operate their own electric system. The population groups are: 499 and below, 500-999, 1,000-2,499, 2,500-9,999, 10,000-49,999 and 50,000+. There are 550 municipalities in North Carolina. There are 478 units that do not operate electric systems and 72 that do operate electric systems.

Our peer group is localities with a population between 2,500 and 9,999 residents that do not operate an electric utility. In the fiscal year ending June 30, 2025, there were 129 localities in our peer group.

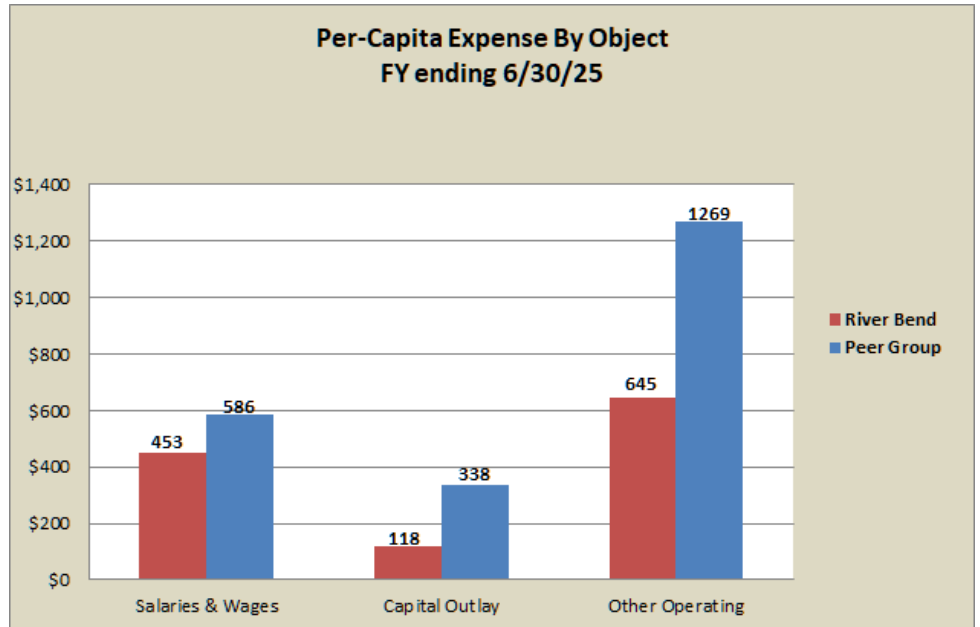

Data from the LGC shows that River Bend's per-capita expenditures in 2025 were \$1,216 (down \$254 from the previous year) compared to \$2,192 (up \$202 from the previous year) for localities in our peer group. The chart above shows some of the significant expenditures by function and how our expenditures compare with those of our peers. The reader will note that River Bend spent \$976 less per capita overall, and spent less in all 6 categories, compared to our peer group.

Data from the LGC also indicates how we compared with our peer group in fiscal year 2025 in terms of per-capita revenue. The data shows that our total per-capita revenue was \$1,442 compared to \$2,537 for our peers. This means that River Bend residents paid \$1,095 less than residents in our peer group.

This chart shows 3 of the 7 major revenue categories and how we compared with our peers in each. The reader will note that in all 3 categories our revenue is lower than that of our peers. Our property tax revenue amount was \$245 less per capita than our peer group. Our utility revenue was \$116 less per capita than our peer group.

This chart shows 3 major expense categories and how we compared with our peers. The reader will note that we spent less per capita in all 3 categories, compared to our peer group. Typically, we spend less in all three. Overall, we spent \$977 less per capita than our peer group.

\* The LGC data contained in this document was found at [nctreasurer.gov](http://nctreasurer.gov) in the Management of Cash and Taxes and Fund Balance Available Report and/or the Annual Financial Information Reports (AFIR) and reflects data that was published as of May 21, 2026.

### Tax Rate History

The chart below shows the 10-year history of the tax rate for the Town of River Bend, including the proposed rate of 30¢ per \$100 of assessed value for FY 26-27.

### Budget and Finance Recognition

The Town Council realizes that the budget preparation process is likely the most important aspects of operating a municipal government. The budget sets the priorities for not only the next fiscal year but also for future years as well. A considerable amount of planning goes into the annual budget preparation process. After the budget has been approved by the Council, it is handed over to the Town Manager for implementation. Maintaining budget compliance is a year-long responsibility. During the fiscal year, the Council is updated at least monthly on the financial condition of the Town. The Council is ultimately responsible for the financial condition of the Town and takes that responsibility very seriously. The Town of River Bend has often been recognized for its budget preparation, financial reporting and transparency. Some of those recognitions are listed below:

**Excellence in Accounting and Financial Management-** from the NC State Treasurer 2010

**Distinguished Budget Presentation Award-** from the Government Finance Officers Association. We received 12 in a row from fiscal year beginning 2010-2021.

**Excellence in Financial Reporting Award-** from the Government Finance Officers Association. We recently received our 14<sup>th</sup> in a row for fiscal year ending 2024. We have applied for and expect to receive our 15<sup>th</sup> award for fiscal year ending 2025 soon.
