(1) Residential customer deposit may apply. Please refer to Water Resources Department Policy Manual.

(2) Base charges do not include any usage.

(3) The published Initial Connection (Tap) charges are based on the historic River Bend average cost that has been experienced in making connections. There will be cases when, because of the local depth of the service main pipe to which the connection is to be made, or other site specific differences from the norm, the published connection fee will not cover the actual cost of the tap. When the Water Resources Superintendent encounters such conditions, he shall notify the applicant requesting the tap that the cost may exceed the published fee. In those cases, a record of cost associated with the specific tap will be accounted for and if the total cost exceeds the published fee, then the applicant shall pay a fee equal to the actual cost.

(4) The necessary equipment will be provided to the resident at cost. The resident is responsible for installing the irrigation meter on the resident's side of the regular water meter. After installation, the work will be inspected by a Water Resources Department employee.
