

**River Bend Town Council
Regular Meeting Minutes
July 16, 2026
Town Hall
5:00 p.m.**

Present Council Members:

Mayor Mark Bledsoe
Buddy Sheffield
Lisa Benton
Brian Leonard
Kathy Noonan
Jeff Weaver

Town Manager: Delane Jackson
Finance Director: Mandy Gilbert
Police Chief: Sean Joll
Town Clerk: Kristie Nobles
Town Attorney: Trey Ferguson

Members of the Public Present: 11

CALL TO ORDER

Mayor Bledsoe called the meeting to order at 5:00 p.m. on Thursday, July 16, 2026, at the River Bend Town Hall with a quorum present, followed by invocation and the pledge of allegiance.

RECOGNITION OF NEW RESIDENTS

Donna Hyatt – Quarterdeck – recently moved back to New Bern from Texas. She stated she is originally from the Bridgeton area.

VOTE – Deletion to the Agenda

Councilwoman Noonan motioned to amend the agenda by removing item 13B. The motion carried unanimously.

VOTE – Approval of Agenda

Councilwoman Noonan motioned to approve the agenda as amended. The motion carried unanimously.

ADDRESSES TO THE COUNCIL

None

CONSENT AGENDA

The Mayor presented the Council with the Consent Agenda. *Councilwoman Benton moved to approve the Consent Agenda as presented. The motion carried unanimously.* Within this motion, the following items were approved:

A. Approve:

Minutes of June 11, 2026 Work Council Meeting
Minutes of June 18, 2026 Regular Council Meeting
Minutes of June 23, 2026 Special Council Meeting

TOWN MANAGER'S REPORT

The Manager gave the following updates:

- The Finance Department has received the Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting for the 15th year in a year.
- The State Water Infrastructure Authority Board met, and the town had the second highest score out of 57 applications in the state. He stated that only 17 applicants were funded. The Town of River Bend was awarded grant funding in the amount of \$1,000,000 and a zero-interest loan in the amount of \$4,777,000.
- Representative Steve Tyson contacted the Town Manager to tell him that there is \$75,000 in the state's budget for the Town of River Bend parks and recreation. He expressed gratitude to Representative Tyson for securing this funding for the town.
- At this time the Town Manager presented a PowerPoint presentation titled "Budget Vote Truth". He stated that he had been made aware of a social media post by Councilwoman Benton about town business and it contained misinformation about him and the Council. He stated that he has asked Councilwoman Benton to correct the misinformation and she has refused to do so. In the PowerPoint the Town Manager addressed several statements that he said are incorrect in the post. He stated that in the Facebook post, Councilwoman Benton stated that "At the June 19 Council meeting, the Town Manager asked me to make a motion to amend the agenda and postpone the budget vote to June 23 due to the absence of Councilman Weaver." The Town Manager stated that the statement is inaccurate. He stated that there was not a Council meeting on June 19 and that was probably just a typo. He also stated that he did not ask Councilwoman Benton to make any motion. He indicated that in his Town Managers report at that meeting he stated that a special meeting would need to be held due to Councilwoman Benton amending the agenda. He did not indicate a date, because the Council would have to decide on that date later and that meeting ended without a date for a Special Meeting being set. He stated that Councilwoman Benton also stated in the Facebook post that "The Town Manager knew that before he asked me. Asking me to make the motion rather asking one of the other councilmembers was itself a calculated decision – it made the postponement appear collegial and bipartisan rather than what is actually was which was a majority faction protecting a predetermined vote outcome." The Town Manager stated that Councilwoman Benton is indicating that this was a strategic calculated decision between him and the rest of the Councilmembers and that is unequivocally false. The Town Manager stated that he has a few questions for the Council, except for Councilwoman Benton because she has made her statement. The Town Manager asked Councilmembers (Leonard, Sheffield, Noonan and Weaver) the following two questions.

"At any time prior to the June 18 Council meeting did you and I have any discussion about a strategy to trick Councilwoman Benton into amending the agenda?"

"Are you aware of any strategy whatsoever by anyone to try and trick Councilwoman Benton into amending the agenda?"

Councilmembers Leonard, Sheffield, Noonan and Weaver all answered “No” to both questions. The Town Manager asked the Mayor the following questions.

“Prior to the June 18 meeting and after you learning that Councilman Weaver would be absent, did you ask me about NC Law, town policy and Council procedures regarding voting, tie votes, special meetings and your duties as Mayor relative to these items?”

The Mayor answered “yes”. The Town Manager then asked the Mayor the same two questions he asked the Council.

“At any time prior to the June 18 Council meeting did you and I have any discussion about a strategy to trick Councilwoman Benton into amending the agenda?”

“Are you aware of any strategy whatsoever by anyone to try and trick Councilwoman Benton into amending the agenda?”

The Mayor answered “no” to these questions. The Town Manager stated that he feels that his comments and the answers by the rest of the Council to the questions he asked clearly brings into question the validity and accuracy of the post made by Councilwoman Benton. He stated that he knows he did not ask her anything and he believes what the other Council members said. He stated, “I said that I was going to clear the record and I have just done so.”

At this time, the Mayor asked for any comments from the Council and Councilwoman Benton said that the Town Manager looked at her and Councilman Leonard and said, “Don’t forget to amend the agenda, Councilman Weaver is not here.” She said that is her recollection and someone else heard that comment. She said that the Town Manager has walked up to the dais many times saying that the Council needs to change this or that and she has done it. She said that he has called her several times prior to a meeting to tell her what questions to ask and he has tried to script her, but she can’t speak for the entire Council. She asked the Mayor if he had a conversation with someone and said that the Town Manager told him that he did not want the Mayor to vote on the budget. The Mayor stated “No, that never happened.” Councilwoman Benton stated that she will have a written notarized statement for the Mayor. She stated that “he, the Town Manager, is bringing up a social media page, when in August 2025 you set a social media policy and disavowed the Facebook page and said it is not an accurate place to get information from, but you want to correct the record. As I told you in my last email, the correct record is on the film, what happened when the cameras rolled. What happened on Facebook or at the local bar that the mayor hangs out at is anyone’s guess.” She stated that she considers this matter closed.

At this time, the Mayor stated that he wanted to clarify that the Town Manager has never asked him directly, or indirectly not to vote on something. He stated that he has asked the Town Manager procedural questions, but he has never been asked not to vote on something.

ADMINISTRATIVE REPORTS

CAC – Councilwoman Benton

Councilwoman Benton stated that the next meeting is August 19.

VOTE – Resolution of Tentative Award for Test Well

The Town Manager stated that the Town is working is on the Water Treatment Plant project and before the Town can construct the new well the Town will need a test well. The test well will provide details and characteristics of the water that the new plant would be treating. Those details will be sent to the engineer to design the Water Treatment Plant. He stated that this resolution is titled “Tentative Award Resolution” because the funds are coming from someone else and it must be approved by the funding agency first, then the Town can issue the award of bid.

Councilwoman Benton motioned to approve the Resolution of Tentative Award for the Test Well as presented. The motion carried unanimously. (see attached)

ENVIRONMENTAL & WATERWAYS – Councilman Leonard

Councilman Leonard stated that the June meeting was canceled but the board is in need of volunteers.

VOTE – Speed Bumps in Quarterdeck

The Town Manager stated that the Council had received a request from the Homeowners Association in Quarterdeck, Cluster IV for the town to install two speedbumps in that area. The Town Manager stated that the police department completed a speed study and the data shows that a majority of the drivers travel about 20 miles per hour or less. After a brief discussion among the Council they agreed to temporarily provide one speedbump in the area.

Councilman Leonard motioned to approve the placement of one (1) speed bump on Quarterdeck Road as presented. The motion carried passed with 4 ayes and 1 nay with Councilman Sheffield voting nay.

PLANNING BOARD – Councilman Sheffield

Councilman Sheffield stated that the June meeting was canceled and the board has one (1) vacancy.

PUBLIC SAFETY – Councilwoman Noonan

No Report.

PARKS & RECREATION – Councilman Weaver

Councilman Weaver gave the following updates:

Parks and Recreation is hosting a weekly Farmer's Market beginning July 31 at 5:00 pm – 7:00 pm. Vendors and Food Trucks are lined up. They are also hosting Free Digital Classes presented by ECU's Outreach Coordinator on August 12 & 19 and will schedule Online Privacy & Security, as well as an AI module following those classes. The next meeting will be scheduled for mid-August, and they will schedule upcoming events including the annual Community Yard Sale and Holiday Tree Lighting. Meetings are always open and the community is invited to attend. There are still four vacancies on the Board.

RIVER BEND COMMUNITY ORGANIC GARDEN

Councilman Weaver gave the following report:

Due to high temperatures, workdays are starting earlier. Volunteers worked 141 hours in June. The six-month total is 783 hours. The total harvest weight for June was 217 pounds, The Swap-a-Plant space is open to everyone. Anyone may take a plant or drop off a plant in the designated area. The next meeting is scheduled for August 3 at 1:30 pm. Guests are always welcome at the meetings and in the garden.

VOTE – Water Resources Policy Manual Amendment

The Town Manager stated that the amendments to the Water Resources Policy Manual included the hydrant fee language being revised to availability fee and there is also language regarding the deposit that was revised.

Councilman Weaver motioned to adopt the amendments to the Water Resources Policy Manual as presented. The motion carried unanimously. (see attached)

FINANCE – Councilman Leonard

Financial Report – Finance Director, Mandy Gilbert, presented the financial statement for the month of June to the Council. She stated the total of the Town's Cash and Investments as of June 30, 2026, were \$2,859,934 and Ad Valorem Tax Collections for FY25-26 were \$1,161,691 and Vehicle Ad Valorem Tax Collections were \$123,454. She stated that this is the final month in fiscal year 2025-2026.

Councilman Leonard congratulated Mandy Gilbert, Finance Director, and the town staff on receiving the Government Finance Officers Association Certificate of Achievement for Excellence in Financial Reporting for the fiscal year ending on June 30, 2025. He stated that this certificate is the highest form of recognition in the area of governmental accounting and financial reporting and this was the 15th year in a row that we received it.

VOTE – Budget Amendment 26-B-01

Councilman Leonard then called on the Town Manager to review Budget Amendment 26-B-01.

Councilman Leonard motioned to approve Budget Amendment 26-B-01 as presented. The motion carried unanimously. (see attached)

VOTE – Establish Fidelity Bond Amount

The Town Manager stated that a Fidelity Bond on the Finance Director is required by the State of North Carolina and the town has always had that bond. He stated that the NCGS states that the bond is fixed by the governing board and to his knowledge the Council has not set a fixed bond.

Councilman Leonard motioned to fix the Fidelity Bond on the Finance Officer at \$500,000. The motion carried unanimously.

MAYOR'S REPORT

No report.

CLOSED SESSION

Councilman Sheffield motioned to go into Closed Session under NCSG §143-318.11(a)(3)(6). The Council entered Closed Session at 6:00 p.m.

OPEN SESSION

Councilman Sheffield motioned to return to Open Session at 6:11 p.m. The motion carried unanimously.

ADJOURNMENT

There being no further business, *Councilman Weaver moved to adjourn. The motion carried unanimously.* The meeting adjourned at 6:11 p.m.

Kristie J. Nobles, MMC
Town Clerk

RESOLUTION OF TENTATIVE AWARD

WHEREAS, the Town of River Bend, North Carolina has received bids, pursuant to a duly advertised notice therefore, for construction of a drinking water test well, and

WHEREAS, the River's and Associates consulting engineers have reviewed the bids, and

WHEREAS, Magette Well and Pump Company, Inc. was the lowest bidder for the test well, in the total bid amount of \$223,950, and

WHEREAS, the consulting engineers recommend **TENTATIVE AWARD** to the lowest bidder;

NOW, THEREFORE, BE IT RESOLVED THAT TENTATIVE AWARD is made to the lowest bidder in the Total Bid Amount of \$223,950.

Name of Contractor	Amount
Magette Well and Pump Company, Inc.	\$223,950

BE IT FURTHER RESOLVED THAT SUCH TENTATIVE AWARD is contingent upon the approval of the North Carolina Department of Environmental Quality.

The above **RESOLUTION** was adopted the 16th day of July, 2026.

Mark Bledsoe, Mayor

Water Resources Department Policy Manual

The policies and procedures contained in this document are intended to define the relationship between the customer of water and/or wastewater services and the Town of River Bend. These policies are, by delivery to a customer, made part of the contract for service entered into by the customer. By contracting for service, the customer acknowledges the applicability of these policies and procedures and agrees to abide by them.

Section 1 - River Bend Water Resources Department

A. Establishment

The Town of River Bend (Town) owns and operates water and wastewater utilities in accordance with applicable State and Federal regulatory requirements and under permits issued by the State of North Carolina. These rules and regulations, as amended from time to time, are adopted by the Town Council of the Town to govern the relationship between the Town and its water and sewer customers.

The Water Resources Department (hereinafter referred to as Department) is operated as a Town Department as authorized in Title V of the Town Code of the Town of River Bend. Operational authority of the Department rests with the Town Manager while the Council retains governing authority of the utilities. The terms Department and Town may be used interchangeably in this document.

B. Authority

The enactment of standard utility policies requires the approval of the Town Council. As fee schedules, rates and other specific policies are updated; it will be the responsibility of the Town Manager or designee to make sure the policy manual is revised.

The Town Manager is authorized as the hearing or grievance officer for customers. As such, the Manager is authorized to hear concerns and complaints, settle disagreements, and reconnect any customer disconnected for nonpayment or other reason while the concern is investigated, if that official deems necessary. Hearings are addressed in Section 6, Discontinuing Service.

All grievances should be heard and addressed by the Town Manager prior to an item appearing before the Town Council.

C. Office and Service Hours

The Town of River Bend Water Resources Office is located in the Town Hall at 45 Shoreline Drive.

The office is open from 8 a.m. to 4 p.m. Monday through Friday. Routine and regular service work will be performed from 7 a.m. to 4 p.m. Monday through Friday and 7 a.m. to 2 p.m. Saturday and Sunday, except for municipal holidays. Service work for unusual conditions may be arranged at other times upon request at a pre-arranged fee.

A 24-hour drop box is available for customer's convenience in the parking lot of Town Hall. Payments made at the drop box after 4 p.m. are posted the next business day.

Water Resources Department Policy Manual

If you have a water/sewer emergency during normal business hours (M-F, 8-4) call Town Hall at 252-638-3870 then press 0. If no one answers, you may leave a message, and we will call you back. Or you can call again at 252-638-3870 and choose another extension. Anyone who answers the telephone at Town Hall will be able to assist you. Remember, we may be on the phone or with another customer at the time of your call. We will respond as soon as possible. After-hours water and sewer emergencies can be reported by calling the Town Hall number (252-638-3870), press option 9 for water and sewer emergencies to get in touch with our on-call operator. If your call is not answered leave your name, number, address, and a brief message about the nature of the emergency. If you do not receive a call back within 15 minutes, please call the Police Department at 252-638-1108 ext. 1, and they will get in contact with the on-call operator. If the police department does not answer, leave a message.

D. Continuity of Service

All reasonable efforts are made to assure continuity of services to customers. Notice is given by posting signs, by mass calling using the Town's emergency notification system, or by personal contact of predicable interruptions to services resulting from systems maintenance operations or repairs. The Department may suspend water and sewer services as a result of accidents requiring major repairs, loss of the water supply, public health emergencies, at the direction of the courts or public authorities or as a result of strikes, riots, war, fire, flood or other disasters.

E. Scope

This Manual is not meant to be all-inclusive but offers direction and guidance for the Town Manager and employees of the Town.

The intent of these policies is to provide the customer, and the employees of the Town a helpful guide with uniform procedures for providing utility service. The Town desires to treat its citizens in a fair and nondiscriminatory manner while recognizing that each customer has distinct needs and requirements.

Employees of the Town have been empowered and well trained to use these policies to deliver high quality service to customers. Employees are expected to deal with each decision with empathy and understanding, listening carefully to the needs and requirements of individual customers. Ultimately, the Town Manager is the final authority on these policies. However, every customer has the right to appeal any decision before the Town Council.

These policies are not meant as a substitute for personal initiative on the part of employees. It will serve as a guide for reasonable response to customer needs while meeting the requirements of good business practices on the part of the Town.

F. Application of Policies

These policies apply to every customer or applicant for utility service, and they may be revised, amended, supplemented, or otherwise changed from time to time by action of the Town Council. Customers are encouraged to seek answers to any questions by calling the

Water Resources Department Policy Manual

Water Resources Office.

Although the Town uses its good faith effort to see that utilities are delivered safely, the Town is not responsible for any damage caused by turning on or off utility services.

G. Customer Request for Policies

Customers may obtain a copy of the Town's policies at the Department's office or on the Town's website. Customers may also request a verbal explanation of the Department's policies.

H. Privacy

Our application/agreement requests that the potential customer provide their social security number. We request this number to verify identity, perform a credit check and collect delinquent balances once a customer vacates a property. There is no statutory or other authority requiring any customer to provide a social security number.

Customer billing data is not considered public information. The Town will ensure that customer information, including billing data, is adequately safeguarded against unauthorized use as required by Section 18.01 of the River Bend Code of Ordinances.

Section 2 - Rights and Responsibilities

The customer and the Town have unique rights and responsibilities in connection with utility service. These responsibilities and rights are detailed throughout this Manual, some of which are summarized here.

A. Customer Responsibility

1. To establish an account the customer must:
 - a. Provide information for the property to which service will be provided, such as address, usage/flow demands, pipe sizes, etc.
 - b. Prior to account activation, pay a utility deposit in accordance with the policies herein described
 - c. Provide and maintain accurate contact information for the town's billing system.
2. Allow Water Resources Department personnel unobstructed access to property to set up and maintain service.
3. Pay bills by the Due Date shown on each bi-monthly bill. The customer must notify the Town before the normal due date if (a) a bill has not been received or (b) questions concerning the amount of the bill (either too much or too little). **Failure to receive a bill or failure of the delivery of payment does not exempt the customer from payment responsibility or from being charged any late penalties.**
4. Notify the Water Resources Office, through an application form, of the identity of other persons (i.e. relatives or power of attorney) a customer would like to receive

Water Resources Department Policy Manual

duplicate billing, notice of service interruption for nonpayment of bills, or other information.

5. Notify the Water Resources Office if there is someone in the household who is either chronically or seriously ill, disabled, or on a life support system. This may require verification from a doctor that the utility is necessary to sustain life. The customer has the responsibility to carefully handle the customer's account so that service will not be interrupted for failure to pay. With the medical alert designation, the Water Resources Office will make a good faith effort to make personal contact with the customer or member of the customer's household before service is terminated.
6. Notify the Water Resources Office of questions or complaints about service.
7. Be aware of and provide unobstructed access to property owned by the Town at the customer's home/business and safeguard it.
8. Install, maintain, and repair plumbing in the home/business that conforms to all applicable laws, rules, and regulations. If the Town deems the property cannot receive service in a safe manner, service will not be connected until the problems are remedied.
9. The Town provides utility service for the sole use and convenience of the premises under contract. The customer will ensure that utility service is not given or resold to anyone, including a neighbor. Violation of this policy will be cause for immediate disconnection of service. (See Section 5 – Discontinuing Service)
10. The customer is responsible for ensuring that the Town has accurate address, billing and contact information for the customer. If any such information changes after the original application, the customer must notify the Town of the changes.
11. In the event of a payment issue involving a bank or third party, the customer is responsible for addressing/resolving any payment/banking issues with the banking institution or payment vendor that they utilize. An error by the bank or vendor does not exempt the customer from any fees. The Town does not negotiate with banks or vendors on behalf of a customer. A late payment made by a bank or vendor will be recognized as a late payment from the customer. If a fee has been assessed due a banking/vendor error, the customer should seek relief or reimbursement for any fee from the bank/vendor, not the Town.

B. Customer Rights

1. A customer has a right to request that the customer's deposit be refunded, if made, when the customer discontinues service from the Town.
2. The customer has a right to request, free of charge, historic billing and usage information. If a utility department employee cannot find any reason for usage changes, the customer may request one free meter test. The customer has a right to the results of this test.

Water Resources Department Policy Manual

3. The customer has a right to request a review of any complaint according to the Town's grievance procedure.

C. Municipal Responsibility

1. Refund the customer's deposit if conditions are met.
2. Give written notice on a regular bill and a separate second notice at least 7 days before service is interrupted for failure to pay. The notice will explain the reason for disconnection, when service will be eligible for reconnection, and explain how the customer can avoid service interruption. The notice will respect a customer's right to privacy regarding publication of debt.
3. Do not disconnect for nonpayment during extreme weather conditions, as determined by Town Manager or their designee.
4. Do not disconnect for nonpayment on a Friday, on a weekend, or on a municipal holiday.
5. Provide and explain rate schedules, how meters are read, and other additional, reasonable information.
6. Respond to questions or complaints from customers. The Town may not agree with the complaint but pledges prompt, courteous, and honest answers.
7. Provide historic billing and usage information when requested by the customer.
8. Provide water usage and conservation information.

D. Municipality Rights

1. Obtain unobstructed access to the Department's equipment and utility facilities. If unobstructed access is not permitted, then services will not be connected until free access is available.
2. To require proof of residency in the form of rent receipts or lease agreements, etc. prior to the establishment of service. Service will not be established if any member of the household has an outstanding account with the Town.
3. To receive notice of changes in address, status of utility service, or problems with utility service.
4. To receive timely payment for services delivered to customers.
5. The appropriate department of the Town is allowed to take action in court or as otherwise permitted by law regarding equipment tampering or financial delinquencies.

Water Resources Department Policy Manual

6. The Town may disconnect services and remove its apparatus from the premise for violation of any Department regulations; i.e., nonpayment of any portion of a bill regardless of the service which the bill or portion thereof represents, or false information on the application of services. (See Section 6 – Discontinuing Service)
7. The Department requires that charges for all services presented on the bill be paid in full prior to the reconnection of services to a location. This will include additional fees such as, but not limited to, nonpayment fees and/or deposits.
8. The Town is not responsible for any damage caused by turning on or turning off utility services.

Section 3. - Establishing Service

A. Connecting to the System

New customers who want to connect or are required by Town Ordinance (15.01.101 and 15.02.066) to connect to the water and sewer systems may apply for the desired services as follows:

1. New customers may apply for service where the necessary water distribution and sewer collection pipes exist beneath or adjacent to streets abutting the property. Such new customers will be required to complete a Service Application acknowledging responsibility for payment of bills, pay the Initial Connection (Tap) Fee, and pay, if applicable, the Capital Investment Fee (CIF) charge set forth in the Rate Schedule, or Class 7 Customers may request water service to property where an Early Bird Special payment was made.
2. If service is requested where the necessary water distribution and sewer collection pipes DO NOT exist beneath or adjacent to streets abutting the property the owner/developer of said property shall be responsible for the cost of extending service to the property.
3. The Town owns and operates a potable water system (WS) and wastewater treatment plant (WWTP). The WS produces, treats and distributes potable water to users. The WWTP receives, processes and treats raw sewer conveyed to it from the town's sewer collection system and then discharges it to the receiving stream. Both of these systems are licensed and regulated by the State of North Carolina. Both the WS and the WWTP have limited capacity. An application for water and/or sewer service must be submitted to the Town and approved by the Town prior to any new water and/or sewer customer being connected to the Town's systems.
4. Once the application is submitted to the town, the Public Works Director will review the application and determine if the Town's system(s) have the capability and capacity to provide the requested service. The Public Works Director will consider what impact approving the service request will have on the operation, performance and/or reserve capacity of the Town's systems. The permit limits, system capabilities, and the state's formula for estimating flow and use, along with any other data relative to the operation

Water Resources Department Policy Manual

of the systems, may be used as a guide in making this determination. No service or line extension shall be connected to the Town's system without approval by the Town's Public Works Director. Additionally, when an extension of either system is requested, the customer may be required to submit additional data to indicate the amount of use associated with the proposed application. Extensions that will be connected to the Town's systems may be subject to approval by the State of North Carolina. If extensions are required, the customer shall provide all data necessary to complete the state application process and pay all costs associated with submitting the application. The applicant shall also pay for any engineering review that the Town requires in order to consider the application.

Any application for service that will require a single or multiple service connections (such as a residential subdivision, business development, planned development, industrial or commercial operation, etc.) wherein such services are estimated to utilize more than 20% of the Town's reserve water production capacity or reserve sewer treatment capacity must also be approved by the Town Manager. Any application for service that is estimated to utilize more than 35% of the Town's reserve capacity of either system must be approved by the Town Council. If the system that is being requested to be used is operating at 80% or more of its permitted capacity at the time of application, or if approval of the application would result in the system reaching at least 80% of its permitted capacity, no service shall be connected to the Town's system without approval of the Town Council. The Town reserves the right to limit the total number of water and/or sewer service connections made to the Town's system as a part of any multi-lot development. The number of permitted connections will be determined by the Town Council.

If connections are limited by the town based on estimated current flow data and/or current reserve capacity and either of those variables change in the future, then the applicant may apply for additional services or extensions based on actual flows and/or changes in reserve capacity. However, no application for additional services may be submitted for a previously approved project within 6 months following completion of the approved project. This 6-month waiting period will be used to establish data on actual flows of the completed project.

Any permitted project not started within 180 days of permit issuance may be subject to revocation and required to re-apply. Any project that requires allocation of water or sewer reserve capacity, which is not completed within 3 years of issuance of the permit, shall forfeit any connections and reserves allocated to them for the unfinished portion of the project. The applicant may, within 6 months prior to expiration of the 3-year term, request an extension of no more than 1 year to complete the project. If after the expiration of the 3-year term or any extension thereof, the project is not completed, the applicant may submit a new request for enough allocation to complete the unfinished portion of the project. For example, if a project was originally approved for 200 sewer connections to serve 200 homes and was allocated 72,000 gallons per day of sewer use, and after 3 years, only 100 homes have been constructed, then the applicant, having only completed 50% of the project, would forfeit 50% of the originally approved sewer connections (100 connections) and 50% of the originally approved sewer allocation (36,000 gallons per day).

Water Resources Department Policy Manual

For the purpose of determining the Town's reserve capacity, the average daily usage of the applicable system, as published in the Town's monthly financial report, for the immediate 12- month period prior to submission of the application, will be compared to the Town's permitted capacity to determine reserve capacity (example: permitted capacity of system minus previous 12- month average daily use = reserve capacity).

B. Service to Existing Connections

Service may be provided to existing connections upon the completion of a Service Application available at the Department's office or on the Town's website. This application form may be submitted in person, via mail, or via facsimile. However, in order to verify identity, a government issued identification document (driver's license, passport, state identification card, military identification card, etc.) is required to be presented in person.

C. Service to Commercial and Industrial Accounts

Accounts established for non-residential service will require a Federal Tax ID number and a signature by a duly authorized representative of a business entity. For a business not operated by a recognized legal entity the account will be listed in the name of a responsible person (owner, manager, etc.). That person accepts the personal responsibility for payment of the account and must notify the Department of any changes in ownership.

D. Time and Place of Application

Customers may request utility service at the River Bend Town Hall during regular business hours (M-F 8:00 a.m. – 4:00 p.m.).

E. Time of Connection

The Department will strive to meet each customer's needs for connection of service. Normal connection will be made in a timely manner during regular work hours. The Department reserves the right to inspect the premises prior to connection to determine if utility service can be received at the premise in a safe manner.

Water customers who request connection or reconnection of water service shall have a representative present in the residence when service is established to ascertain that damage is not being caused by water in the resident's water system as the connection is re-established. The Town shall not have liability in such instances.

F. Out-of-Town Connection Requests

If a customer wants to obtain service prior to arrival in the Town, the Department may provide the requested service and mail, fax, or email a Service Application and Water Resources Policies Manual to the customer. Mailed information shall include acknowledgment of the establishment of service and an application for services for the customer to sign. However, in order to verify identity, a government issued identification

Water Resources Department Policy Manual

document (driver's license, passport, state identification card, military identification card, etc.) is required to be presented in person. The customer shall pay the required deposit prior to account activation.

G. Temporary Turn-on and Turn-off at Permanent Premises

The Department shall assess an additional fee (refer to the fee schedule) to be paid for the expense of turning on and off utilities maintained for less than 30 days at a permanent premises.

H. Estate Account

The Department may request legal documentation from the executor or the person responsible for administering an estate. The account will then be set up in the estate's name. It is the responsibility of the executor or other person administering the estate to notify the Department of any changes in account status. The deposit requirement for the account will have to be reviewed as a new account.

I. Customer Responsibility for Piping

Each customer is responsible for the installation, care, maintenance and repair of water and sewer piping on his property. The Town is not responsible for any piping between the customer's home/building and the service meter. Typically, the line of demarcation for where the customer's responsibilities and property ownership begins is marked by the placement of utility fixtures such as fire hydrants, utility poles, meter boxes, utility pedestals and utility transformers, etc. The customer is responsible for obtaining any permits, approvals and inspections. Installation is governed by the Craven County Building Codes and inspection of such new water and sewer piping is done by the Craven County Inspection Department. All piping shall be maintained in accordance with the applicable building code. Failure to do so may subject the service to disconnection until the piping is in compliance with the applicable building code. Sharing services between buildings on different properties, except for condominiums and group residences, is not permitted.

J. Prior Debts

The Department will refuse to furnish new service to an applicant who is indebted to the Town for service previously furnished at any address in the Town. Also, service will not be established if any member of the household has an outstanding account with the Town. The Town may require proof of residency in the form of rent receipts or lease agreements, etc., prior to the establishment of service.

The Department will also refuse service to an applicant requesting service at an address where the owner of those premises is delinquent in paying the account at that address. If however, the delinquent customer is not the owner of the premises to which the services were delivered; payment of the delinquent account may not be required before providing services at the request of a new and different tenant or occupant of the premises. This restriction will be subject to some interpretation if more than one tenant is occupying

Water Resources Department Policy Manual

premises and such tenants attempt to request, receive and not pay for service. In such event the “new and different tenant or occupant” requirement may not be met.

K. Deposits

The Town may not make the provision of a social security number (SSN) mandatory for service. However, election not to provide a valid social security number will subject the customer to an increased deposit amount as described below. Service will be denied to any person who is in debt to the department for current or past service until such debt is paid in full, including any fees and/or penalties.

Deposits must be paid in cash or by credit card (through a third-party provider). Deposit funds will be held by the Town and will be returned, without interest, in accordance with the policies herein described.

Service Level	Utility Deposit Amount with SSN	Utility Deposit Amount without SSN
Water Only	\$200	\$250
Water and Sewer	\$300	\$350

L. Future Deposits

Any customer whose service is involuntarily terminated for nonpayment, meter tampering, or other reasons will be required to pay a deposit and/or bring their current deposit up to the amount, as specified in Section 3 (K), prior to reconnection of service. This includes all customer accounts, including owner occupied addresses. Any customer that submits more than one check which is returned as not paid, for any reason, shall be required to pay a deposit and/or bring their current deposit up to the amount, as specified in Section 3 K, on that account within 5 days of being notified or that service may be disconnected.

M. Refunding of Deposits

A deposit will be refunded promptly and automatically when service is voluntarily discontinued and all bills are paid. All outstanding amounts on the final bill will be deducted from the deposit amount. Refunds for less than \$3.00 will not be issued. The deposit will not be refunded if the customer has another account with a past due balance. The remaining credit on the account will be transferred to another account with a balance.

Section 4 - Rates and Fees

A. Customer Classes

There are ten customer classes for billing purposes as follows:

Class 1 - Connected to a 5/8" (typical domestic service) water meter and to the sewage collection system. Includes condominiums and group residences with a single common meter and a single bill instead of individual customers' bills.

Class 2 - Connected to a 5/8" (typical domestic service) water meter with no sewer connection. Class 3 - Connected to a 2" water meter and to the sewage collection system.

Water Resources Department Policy Manual

Class 4 - Connected to a 2" water meter with no sewer connection.

Class 5 - Connected to a 4" water meter and to the sewage collection system.

Class 6 - Has a 5/8" water service installed at property line during system expansion - Converts to Class 2 when used.

Class 7 - (Availability Fee) Charged for any parcel of real property on which there are one or more residential dwellings units or commercial establishments located within the Town limits and whose boundary line is contiguous with any easement, right-of-way, or parcel containing a Town water line, where said waterline provides the availability of Town water to said parcel, provided that said parcel is not currently the location of a water service customer.

Class 8 - Connected to a 1" water meter with or without sewer collection system.

Class 9 - Connected to a water meter greater than 5/8" (typical domestic service), with or without sewer connection, where the use served is vacant or otherwise out of use. In order to qualify for this Class, the property must be vacant or otherwise out of use, the customer must use less than 2,000 gallons per two month billing cycle, and must request, in writing to the Water Resources Department, to be changed to this Class. If more than 2,000 gallons are used in a subsequent two- month billing cycle, the customer shall automatically revert to the Class appropriate for the connection served.

Class 10 - Connected to a 5/8" (typical domestic service) water meter and to the sewage collection system, where the use served will be permanently vacant. This class is intended to accommodate owners that do not anticipate that their property will be occupied again during their ownership and therefore not serviced by an active user account. In the event that an owner requests to return to an active user account, the owner will be required to pay a reactivation fee. See Section 7, Item I (Vacant Residences) for more information.

B. Rate Setting

The Town Council reviews rates each year during the budget process. Using a professionally designed rate model, the Council examines current and future needs (including adequate reserves) of the systems in order to establish rates that are adequate to meet these needs. The rates are included in a Fee Schedule adopted annually with the Budget Ordinance and sets forth the charges to be used for customer billing purposes.

Section 5 - Billing for Service

A. Billing Cycle

1. Bi-monthly bills are mailed out no later than the 10th day of the billing month – January, March, May, July, September and November (odd-numbered months).
2. A bill is past due if not paid by 4:00 p.m. on the 30th day following the bill date. A 10% late payment fee will be assessed on all past due accounts, and a second notice including the late payment fee will be mailed the following day.
3. No third notice will be mailed. The Department may attempt a call using our automated notification system to a phone number provided by the customer alerting the customer as to the planned date of disconnection. Disconnections will only be made Monday

Water Resources Department Policy Manual

through Thursday in order to give customers the opportunity to make payment and have service reconnected before a weekend.

4. Service is scheduled to be discontinued if payment is not received by 4:00 p.m. on the 45th day following the bill date. The nonpayment fee will be charged to any customer whose bill is unpaid at 4:00 p.m. on the 45th day following the bill date. The fee and past due balance must be paid in full before service is reconnected.
5. No service will be reconnected between the hours of 4:00 p.m. and 7:00 a.m.
6. A charge, as noted in the Section 7.D. of these policies, will be imposed against any customer who reconnects the customer's own meter.
7. Due to the unavailability of the proper coins to make exact payment or change, the customer or town may elect for an account to carry an outstanding balance of up to \$1 without incurring additional fees.

B. Meter Reading

Customer water meters are read bi-monthly and the water consumption is calculated accordingly. Should meter reading data be unavailable for any reason, an estimated consumption for the billing period based on prior billing data may be used. Any adjustments resulting from subsequent more accurate data will be made part of the next bill.

The Department utilizes state of the art water meter reading (radio read) technology that does not require a meter reader to read each individual meter. However, the technology is dependent upon the customer maintaining the area of the meter box serving the property in a manner that keeps it unobstructed by shrubs, grass, weeds, mulch, dirt, or other similar materials. Similarly, vehicles may not be parked over the water meter. If a "radio read" meter fails to transmit reading data, an operator will visit the location. If the failure to transmit is due to customer (or their agent) obstruction or due to damage caused by a customer (or agent), notice will be given to the customer, and a fee to recover repair costs shall be invoiced and applied to the customer's account.

C. Application of Payments and Payment Options

Partial payment of balances due on a customer's account shall be applied in the following order:

1. Charges and fees – such as, but not limited to, late payment penalties, nonpayment fees, and charges resulting from damage to Department equipment and/or property.
2. Sewer service charges (if applicable)
3. Water service charges

Payment Drop-Box: A drop-box is located in the center island of the Town Hall parking lot for check and money order payments. Cash payments are receipted in Town Hall during regular business hours, Monday – Friday, 8:00 a.m. to 4:00 p.m. Any payments placed in

Water Resources Department Policy Manual

the drop-box after 4pm will be posted the next business day.

Direct Bank Draft: Customers can have their bill drafted directly from their bank account each billing cycle. A completed Enrollment Form along with a voided check is required to sign up for this service.

On-line or by Phone: The Town accepts payments by credit cards, debit cards, and electronic checks through *ACI Payments, Inc.*, a third party company. Payments may be made through Official Payments by using their secure web site or interactive voice response phone system. Their web-based service provides a record of payment, and the phone system a confirmation number. ACI Payments, Inc. will charge a separate convenience fee for credit card payments and E-Check payments. Please note, ACI Payments, Inc. will charge a return fee for returned E-Check payments. These fees will show up as a separate charge on your credit card or bank statement. Visit their web site at www.officialpayments.com or call 1-800-272-9829 to use their phone payment option with your credit card or "PIN-less" debit card. To properly process your payment, you will need to provide your River Bend nine digit account number and River Bend's unique "jurisdiction number" which is 3963.

D. Billing Adjustments

If the Department has overcharged or undercharged a customer for service, the Department will correct this error subject to the following procedures:

1. If the Department has overcharged a customer for service, the Department will, at the Department's option, refund to the customer or credit the customer's account, without interest, the excess amount, subject to the following limitations:
 - a. If the time period over which the mistake occurred can be determined, the Department should credit or refund the excess amount charged the account for that entire interval, provided that such time period shall not exceed two (2) years.
 - b. If the time frame of the problem cannot be determined, the Department should refund the excess amount charged during the previous 12 months.
 - c. If the exact amount of excess charge cannot be determined, the Department should estimate the amount due.
 - d. If an overcharged customer owes a past due balance to the Department, the Department may deduct that past due amount from any refund or credit due the customer.
 - e. If an overcharged customer owes the Department on another account, the Department will apply the credit to that past due account.
2. If the Department has undercharged a customer for service, the Department will collect the additional amount due the Department in installments over the same amount of time as the undercharge. However, in no instance shall the time period for which the undercharge is calculated and time period for collection, exceed three (3) years.

Water Resources Department Policy Manual

If the period of time over which the undercharge occurred cannot be determined, the Department will calculate the undercharged amount based on the 12 months of activity before the undercharge was discovered or by using historical meter readings. If the exact amount of the undercharge cannot be determined, the Department will estimate the amount due.

3. If an undercharge has occurred because of tampering or bypassing a meter or because of other fraudulent or willfully misleading action of the customer, the Department shall collect the entire undercharged amount in a lump sum and seek such other rights and remedies as are permitted by law.

E. Service Changes

Customer service changes are of three kinds: (1) Service Connection where Department pipes, shutoff valve and water meter and/or sewer connection, if applicable, are initially installed at the customer property, (2) Service Disconnection where the installed water meter is taken out of service by the Department, and (3) Service Reconnection where a water meter is restored to service in previously used Department piping. Provision of sewer service coincides with the status of the associated water meter. Changes in service are authorized by written application of the customer or his agent to the Department. Charges for service changes are as set in the Rate Schedule.

F. Billing Changes

It is the responsibility of the property owner or designee to advise the Department to whom, and to what address, bills are to be sent (i.e. new owner or renter). Billing change forms acknowledging legal responsibility for the payment of bills are available from the Department.

G. Address Changes

Customers must advise the Department of any change in the address to which bills are to be mailed. There is no charge for such changes. **Failure to receive a bill sent by mail will not excuse late payment of bills.**

H. Transfer of Existing Customer to New River Bend Location

If an existing Department customer moves from one River Bend residence to another River Bend residence, base charges will be pro-rated to the date of the service change and consumption charges will be billed based upon actual closing and initial meter reading. Customers may transfer service from one location to another as long as any bills are not past due. The remaining amount owed and any fees from a previous service may be transferred to the new account.

If the customer has an account that is past due, the customer will have to pay that amount before the account can be transferred. The deposit from the previous account will be transferred and an additional deposit may be required depending on the services provided.

Water Resources Department Policy Manual

I. 1998 Water System Expansion

In 1998, the water system was extended to the parts of the Town not being served at that time. Class 6 was set up where potential customers paid a reduced Early Bird water service connection fee giving them or subsequent owners of the property the right to connect to the water system at no additional charge. Class 7 was set up for residents who are not Department customers as a way to pay off the debt service incurred in providing water lines to serve their homes.

Class 7 Availability Fee charges are included in the Rate Schedule and are billed bi-monthly and are subject to billing guidelines in Section 5 herein.

J. Class 7 Customers Transferring To Class 1 or 2

Class 7 customers who elect to become Class 1 or 2 water service customers will have any paid up Class 7 Availability Charge monies credited to their new Class 1 or 2 account.

Section 6 – Discontinuing Service

A. Closing a Utility Account

After an account has been closed by either customer request or demand of the Department, all funds (including deposits, refunds, and overcharge credits) will be applied first against amounts owed the Department on the closed account. Remaining funds will then be used against any amounts owed on any other accounts the customer may have or previously had with the Department. This includes any joint accounts the customer may have/had with the Department. When those accounts have been cleared, a check for the remaining money will be issued to the customer for any net credit over \$3.00.

B. Forced Closing of a Utility Account

Within 15 days after termination of utility service, the account will be closed. All fees and credits are then added to the balance and a "final" bill will be issued to the customer. Any balance owed to the Department will remain a receivable until paid.

All legal means of collection for a delinquent account in arrears will be taken, even if the account is not in "closed" status.

C. Termination of Service

1. **Requesting Discontinuance of Service:** Any customer requesting discontinuance of service will inform the Department's employee of the location, date service is to be disconnected and the forwarding mailing address for the final bill. Due to privacy issues, the account holder must be the one to request the termination of service. In the event that the account holder has become incapacitated or deceased, legal documentation must be provided that the person requesting termination of service is an authorized representative of the customer.

Water Resources Department Policy Manual

2. **Disconnection Scheduling:** Under normal conditions, disconnection from the Town's utility system will be performed the same day if the request is received prior to 2:00 p.m. A request received after 2:00 p.m. will be normally fulfilled the next working day.
3. **Final Bill:** A customer's final bill will be mailed in a timely manner to encourage collection and customer understanding. Base charges will be pro-rated to the day of disconnection and billed along with consumption charges and any other amounts due.

D. Customer's Rights Prior to Discontinuance of Service

1. **Reasonable Opportunity:** The Department will discontinue utility service to customers for nonpayment only after giving the customer a reasonable opportunity to question the accuracy of the bill. Reasonable opportunity is defined as the period of time from the issuance of the bill until the date of potential disconnection as described in Section 4.
2. **Disputed Bill:** If a customer disputes the accuracy of the customer's bill, the customer shall:
 - a. First contact the Department's office for clarification.
 - b. If the customer, after this conversation, still disputes the bill, the customer has the right to file a written appeal to the Town Manager. This appeal should include the reason for the dispute and any evidence proving the inaccuracy of the bill.
 - c. Written appeals must be made within 15 days of the mailing date of the bill.
 - d. The Town Manager will review the appeal and send a written reply within a reasonable amount of time to the address shown in the billing system, noting the decision regarding the appeal and any substantiation for the decision.
 - e. If the customer remains unsatisfied with the resolution of their dispute, they may make an appeal to the Town Council for a hearing on the dispute.
 - f. A request for a hearing before the Town Council shall be made in writing at least four business days before the scheduled Town Council Work Session. Hearings will only be conducted at duly advertised Town Council Work Sessions, and NOT at the regular Town Council Meeting.
3. **Exceptions:** Under special circumstances, the Department may choose not to interrupt service during extreme weather or when the meter serves an elderly, handicapped or critically ill person, or a person on life support equipment about whom the Department has prior written notice.
4. **No Disconnection:** Disconnections for nonpayment will only be made Monday through Thursday in order to give customers the opportunity to make payment and have service reconnected before a weekend.
5. **Hearing:** The Department will discontinue utility service for nonpayment only after notice has been given and the customer has had the opportunity to be heard on disputed

Water Resources Department Policy Manual

bills or waived their right to dispute by failing to timely make an appeal.

E. Involuntary Discontinuance of Service

1. The Department may discontinue utility service for any one of the following reasons:
 - a. Failure of the customer to pay bills for utility service as required in by these policies.
 - b. Failure of the customer to pay deposits as required in the Section 3, (Establishing Service), of this policy.
 - c. Upon discovery of meter tampering including bypassing the meter or altering its function. The account holder is responsible for the payment of all fees associated with repairs made by the town for any damages that are a result of meter tampering.
 - d. Failure of the customer to permit municipal employees access to their meters at all reasonable hours. Locked gates, loose dogs, parking cars over meters, etc., are considered to be a denial of access.
 - e. Use of service for unlawful reasons.
 - f. Discovery of a condition which is determined to be hazardous or unsafe.
 - g. Reselling water.
 - h. Violation of any of the Department's other utility service policies and procedures, as they may change from time to time.
2. A notice for disconnection must include a clear explanation of the reasons for the termination, a statement that cutoff is imminent and the date it will occur; a statement advising the customer of the availability of a hearing with the right to contest the bill and the disconnection; the address, phone number, and office hours of the customer service employee to contact regarding the payment, the hearing, and the dispute.

F. Disconnection for Prior Debts

The Department can disconnect customers with prior debts only if:

1. The current services are in the name of the customer(s) with the prior debt. The Department will not allow any customer to continue service if there is any outstanding debt due to the Department either by an agreement signed by the customer or by another person who is currently or previously been a member of the household or who resides at the service address.
2. The customer has been delinquent for 10 days and the Department has notified the customer of their intent to disconnect and has given the customer reasonable time to respond.

Water Resources Department Policy Manual

G. Reconnections

When it becomes necessary for the Department to discontinue services for any of the reasons listed in this Section, service will be restored only after payment of all of the following which apply to the account: (1) all past due bills due the Department, (2) any deposit as required, (3) any material and labor cost incurred by the Department, according to the Fee Schedule, and (4) all fees and charges required by this policy.

Section 7 - Operational Policies

A. Meter Testing

Customers may request that the Department test their water meters for accuracy once at no cost to them. If they request a meter test more frequently, there will be a charge assessed as set in the Rate Schedule unless the meter reads high by more than five percent (5%). If

a customer believes his meter reading is inaccurate, the current bill shall be paid. Any adjustment will be made in the next billing period.

B. Responsibility for Leakage

The Department is responsible for correcting leaks in the streets and up to the water meter. The customer is responsible for leakage in the piping on his property on his side of the water meter and will be charged for water based on water use as indicated on the meter.

In cases where the Public Works Director determines that excess charges have occurred as a result of a leaking water line on the customer's side of the water meter and the leaking water did not enter the wastewater treatment system, the Town will adjust the customer's bill for sewer service (if a subscriber to this service) by substituting using actual usage if available through the Town's radio read software or an average usage based on previous usage.

1. The adjustment will be the difference between the billed usage and the actual usage if available through the Town's radio read software or the average for the prior twelve (12) months or since inception of the customer's sewer service, whichever is less.
2. The customer may apply for relief from the scheduled charges according to the following rules:
 - a. The customer must apply for relief within fifteen (15) days of the date of the bill in question.
 - b. The Public Works Director must certify that leakage actually occurred. Customers requesting an adjustment are encouraged to document evidence of a leak in a specific location and its repair, such as pictures, receipts from plumbers or other type documentation. This documentation can be used by the town to determine if an adjustment is appropriate.

Water Resources Department Policy Manual

Upon certification of the Public Works Director, relief shall be granted in an adjusted bill for the period in question according to the following formula:

$$\text{Sewer Usage relief} = \text{Sewer Rate} \times (X - Y)$$

Where:

X = Gallons billed for the period in question:

Y = Gallons as calculated by 1) actual usage if available through the Town's radio read software, or 2) average usage based on previous usage

Customers who disagree with the Director of Public Works' decision may appeal to the Town Manager in writing within fourteen (14) days of the date of the Director's decision. The Town Manager will issue a final decision within fourteen (14) days of receipt of the appeal.

C. Damage to Plants and Shrubs

The Department is not responsible for damage to plants and shrubs which may be dug up or cut/trimmed in the course of work on the underground piping system or other apparatus located beyond a customer's property line or within a utility easement. A reasonable effort will be made to minimize or repair any resulting damage. The customer is responsible to ensure that the water meter is not obstructed by plantings, mulch, grass, or any other means. If the Town must, in the opinion of the Public Works Director relocate a meter due to obstruction by landscaping, or other obstructions, the owner of the property will be charged for labor and materials to complete the necessary work.

D. Tampering With Water and Sewer System Equipment

In accordance with North Carolina General Statutes 14-151.1, unauthorized persons found tampering with Town water meters or other water and sewer system piping or equipment can be fined up to \$500.00 plus triple the amount of any losses or damages sustained for each tampering incident. The Town may also discontinue service in accordance with these policies.

E. Damage to Department Equipment

Any damage caused by the customer, property owner, or their agent(s) to the Department's equipment or property serving a customer shall be the responsibility of the customer. The Department shall make necessary repairs and charge the customer for materials and labor to effect said repairs. Such damage includes, but is not limited to, damage from mowing, vehicles, landscaping, or excavation.

F. After Hours Service Calls

A charge will be made for service calls made by Department personnel outside their normal working hours of 7:00 a.m. to 4:00 p.m. on weekdays and 7:00 a.m. to 2:00 p.m. on weekends that are initiated by customers or their agents. The hourly rates for such services

Water Resources Department Policy Manual

are included in the Rate Schedule. Each request must be documented on a Department Service Request Invoice by the customer acknowledging responsibility for charges that may accrue.

G. Swimming Pool Filling

Upon request, swimming pools may be filled once per fiscal year (July 1-June 30) without the customer having to pay a sewer usage charge on the water used to fill the pool. This is known as a "pool adjustment" and is only available for River Bend sewer customers. Pool adjustments do not include routine maintenance and season-opening fills. Pool adjustments are for the initial filling of new pools or for re-filling a pool after it has been drained for maintenance/repair. The amount of a pool adjustment will be calculated in either of three ways: (1) Where calculations showing the pool's normal functional water capacity are available from a pool construction/maintenance contractor (in 1,000 gallons) the customer shall provide such documentation with the request for a pool adjustment, or (2) Where the customer utilizes a department-owned meter to record the total gallons used for filling the pool, or (3) When the customer agrees to accept a gallons used amount as determined by Town staff. In the absence of a mutually-agreed upon amount, between the town and the customer, no pool adjustment will be made under this method. For option 2, a limited number of meters, equipped with "garden hose" fittings are available by contacting the Department. Customers who use these meters will be asked to sign a form accepting responsibility for damage to the meter or other appurtenant equipment and relieving the Town of any liability resulting from the customer's use of the meter. No request for a pool adjustment will be approved, under this method until the meter is returned in working order and the Department verifies the usage. Pool adjustments will be applied to the next bill cycle after the request is approved. The sewer use rate in effect at the time of the filling will be used to calculate the pool adjustment. To be considered, a request for a pool adjustments must be submitted to the Department within 15 days of the pool filling. The Town reserves the right to reject any request for a pool adjustment when the amount of gallons claimed to be used is determined to be unreasonable by Town staff.

H. Irrigation Water Meters

All new in-ground irrigation systems, served by the Town's water system are required, by Town Ordinance (15.2.126) to have a separate irrigation water meter. Similarly, any other utility customer of the town in good standing may request the town to install and operate a town-approved irrigation meter at any property owned by such customer, to which the town provides utility services, for currently installed irrigation systems.

Prior to the installation of a new in-ground irrigation system to be connected to the Town's water system, or connection of an existing system to the Town's system, the customer shall request the Department to install and operate a town-approved irrigation meter. The customer is responsible for connecting their system to the customer side of the meter and for allowing inspection of all connections by Department staff prior to burial of piping and turn on of the meter.

All irrigation meters, meter boxes, pipes and other equipment furnished or used by the town in installing any such irrigation meter shall be and remain the property of the town. Prior

Water Resources Department Policy Manual

to installation of any such irrigation meter, the customer shall pay to the town all charges specified in the schedule of fees established (and as modified from time-to-time) by the Town Council for this service.

Prior to installation of any irrigation meter pursuant to this section, any new water customer shall also pay to the town a Capital Investment Fee (CIF) as described in Section 3.B.

I. Vacant Residences

1. Temporary Interruption - In an effort to reduce the likelihood of water leaks for our customers, the Department will turn off water service at the water meter for any customer at the customer's request when the customer will be out of town for thirty (30) days or more. The Department will restore service within twenty (24) hours of notification when the customer returns, at no charge. The customer must, however, arrange to pay the monthly base charge on the monthly billings during the customer's absence. This section is intended to accommodate residents who plan to be away from their residence for a finite amount of time and plan to continue to use the town's utility service upon their return.
2. Permanent Interruption - Similarly, the Department will turn water off to a vacated property at the request of the customer. However, the owner of the property must arrange to pay the monthly base charge on the monthly billings for the time the property is not served by an active user account. In instances of a vacated property, where the owner has requested the water to be turned off, the owner will be charged the base charge for water only and shall become a Class 10 customer. This section is intended to accommodate owners that do not anticipate that their property will be occupied again during their ownership and therefore not serviced by an active user account. In the event that an owner initiates a Class 10 account for the vacated property then requests to return it to an active user account, the owner will be required to pay a reactivation fee. The reactivation fee shall be equal to the then current base rate for sewer and shall be charged for every month that the property was billed as a Class 10 account. Accounts that are activated by the 15th of the month will not be charged for that month. Accounts activated after the 15th of the month will be charged for a full month.

J. Bad Check Processing

Charges, as set forth in North Carolina General Statutes (23-5-506 and 6-21.3), are made for each check or automatic draft returned by a bank because of insufficient funds in the account, or any other reason the bank refuses the check or draft.

The customer shall have five (5) days after notice is mailed indicating that the check is not good, to present cash, bank certified check, or money order for the full amount of the bill, plus the charge noted above (NC GS 6-21.3).

The existing due dates for avoiding late payment and nonpayment fees on unpaid bills will remain in effect while bad checks are being made good. Therefore, even though the time for making the check good has not expired, the application of late fees and/or termination of service may occur.

Water Resources Department Policy Manual

Any customer account with two checks returned will be restricted to cash, money order, debit or credit card when making all future payments. Checks received in payment on such flagged accounts will not be accepted and will be returned to the customer.

K. Debt Collection

The Town is authorized to collect delinquent public enterprise utility fees “by any remedy provided by law for collecting and enforcing private debts...” G.S. 160A-314(b).

The North Carolina Setoff Debt Collection Act (“Act”) provides an administrative procedure for the Town to collect amounts due for utility service from the state tax refunds of its customers. More information can be found at <http://www.ncsetoff.org>. The Town may also contract with a utility collection agency.

Section 8 – Relevant Town Ordinances

The following excerpts from the Town Code of Ordinances are also applicable:

§ 5.01.002 Rates

- (A) *Rate hearing.* Before it establishes or revises a schedule of water and sewer rates, fees, charges, or penalties, the Town Council shall hold a public hearing on the matter. A notice of the hearing shall be given at least once in a newspaper having general circulation in the area, and not less than 7 days before the public hearing. The hearing may, but need not, be held concurrent with the public hearing on the proposed budget ordinance.
- (B) *Objective of rate making.* In order to pay debt service on loans made to the town on behalf of the water and sewer systems, rates will be established to be paid by the systems users in amounts sufficient to pay the principal and interest on the debt and all operating, maintenance and upgrading costs and maintain system reserves.
(Prior Code, Ch. 13, Art. I, § 3)

§ 5.01.003 Use of Water and Sewer Funds

As all water and sewer costs shall be borne by the users of the systems, none of the water and sewer funds or retained earnings of the water and sewer systems will be used by the town for any purpose other than to benefit the users of the respective systems.
(Prior Code, Ch. 13, Art. I, § 4)

§ 5.01.004 Cost Accounting

- (A) *Separation of water and sewer costs and revenues.* The Finance Officer shall maintain ledgers or accounts for the water and sewer systems which shall record in detail the assets, liabilities, equities, revenues and expenditures of the respective systems. Separate balance sheets and other financial statements shall be maintained for the water system and the sewer system. Water and sewer costs which are shared shall be allocated on a fair and equitable basis. Proposed allocations shall be presented with the annual budget and shall include the rationale and documentation in support of the recommendations.
- (B) *Financial operations.* The Finance Officer shall be responsible for the financial operations of the department including accounting, debt service, bill preparation and collection, payment of accounts payable, financial reports, payroll preparation, insurance, balance sheets, financial statements and other related financial data. The Finance Officer shall be responsible for contractual matters.
- (C) *Sharing of general and administrative costs.* General and administrative costs to be shared by the town's corporate body and the water and sewer systems include, but are not limited to, computer systems and related software, office equipment, maintenance equipment, facilities, communications systems and administrative and financial support. These costs shall be allocated on a fair and equitable basis and shall be reviewed annually.
- (D) *Annual audit.* All accounts, ledgers, purchase orders, invoices and all other records of the water and sewer systems including the allocation of general and administrative services and expenses shall be the subject of an annual audit as part of the audit of all of the town's accounts by independent qualified auditors who shall report to the Town Council. Audits shall be in accordance with enterprise fund criteria as

Water Resources Department Policy Manual

specified in state statutes.
(Prior Code, Ch. 13, Art. I, § 5)

§ 5.01.005 Budget Preparation

The Budget Officer, with the assistance of the Water Resources Department Head and Department Superintendent, shall prepare the annual water resources budget for submission to the Town Council for approval.
(Prior Code, Ch. 13, Art. I, § 6)

§ 5.01.007 Connection to Water Supply and/or Sewage Disposal Systems

All new construction, in accordance with Section 15.02.066 of this Code, shall be connected to the water supply and/or sewer disposal system if available. All existing customers of the system(s) shall maintain connection to said system(s) as the sole means of supplying potable water to and/or wastewater removal from all improvements on the property. Private wells will only be permitted for non-potable water use, and no new private waste disposal systems will be permitted in areas where sewer service is available.

§ 15.01.101 Water and Sewerage Systems *(from the subdivision ordinance)*

- (A) The preliminary subdivision plat must be accompanied by satisfactory evidence as to the proposed method and system of water supply and sanitary sewage collection and disposal.
- (B) Water supply systems shall be connected to the town's water system and shall be approved by the town's Water Resources Department as to the size of mains, points of connection to the town's water supply system, turn off valves and loops in the system. At the time of approval, the Water Resources Department shall provide the developer with a list of impact costs to ensure the adequate supply of water to the subdivision. These costs shall be paid for by the developer.
- (C) Water supply systems shall be further approved by the Water Resources Department and the Fire Department as to location of hydrants and size of mains feeding the hydrants.
- (D) Wastewater systems shall be connected to the town's wastewater system and shall be approved by the Town's Water Resources Department as to the proper flow, number of lift stations required, emergency pumping facilities and points of connection to the town's wastewater system. At the time of approval, the Water Resources Department shall provide the developer with a list of impact costs to ensure the adequate flow of wastewater from the subdivision to the treatment facility. These costs shall be paid for by the developer.
- (E) On site wastewater treatment systems may be permitted if there will not be a town wastewater system available within 90 days, as approved by Craven County Health Department. The developer shall install the infrastructure for wastewater collection, including individual property taps, even though they are not connected to the central system.

Penalty, see § 1.01.999

Water Resources Department Policy Manual

§ 15.02.066 Water Supply and Sewage Disposal

- (A) *Approval.* Each application for an initial zoning permit or a special exception permit shall be accompanied with plans of the proposed method of water supply and sewage disposal. All new construction having available public and/or community water and/or sewage disposal systems upon payment of applicable tap-on and other user fees and charges shall provide for connection to the water systems and/or sewage disposal systems **and in accordance with Section 5.01.007 of this Code, remain connected to said system(s) as the sole means of supplying potable water to and/or wastewater removal from all improvements on the property.** No excavation for or construction of any building or use of land shall be commenced until approval of the Craven County Health Department is noted on the plans and an initial zoning permit is issued.

Water Resources Department Policy Manual

Special Charges

Service Call - 2 hour minimum	\$35 per hour - signed by customer to initiate work outside of scheduled work hours of 7:00 a.m. - 4:00 p.m. weekdays and 7:00 a.m. – 2:00 p.m. weekends
Meter Testing Charge	\$25 - no charge if meter defective
Returned Check Processing Charge	\$25, as allowed by G.S. §25-3-506
Late Payment Charge	10% of amount overdue per month or part of month beginning 30 days after billing date.
Irrigation Meter⁵	Actual cost of irrigation meter and fittings
Irrigation Connection Inspection	\$20

⁽¹⁾Residential customer deposit may apply. Please refer to Water Resources Department Policy Manual.

⁽²⁾Base charges do not include any usage.

⁽³⁾The published Initial Connection (Tap) charges are based on the historic River Bend average cost that has been experienced in making connections. There will be cases when, because of the local depth of the service main pipe to which the connection is to be made, or other site specific differences from the norm, the published connection fee will not cover the actual cost of the tap. When the Water Resources Superintendent encounters such conditions, he shall notify the applicant requesting the tap that the cost may exceed the published fee. In those cases a record of cost associated with the specific tap will be accounted for and if the total cost exceeds the published fee, then the applicant shall pay a fee equal to the actual cost.

⁽⁴⁾The necessary equipment will be provided to the resident at cost. The resident is responsible for installing the irrigation meter on the resident's side of the regular water meter. After installation, the work will be inspected by a Water Resources Department employee.

Payment Options Available to Pay Your Utility Bill

Direct Bank Draft

You can have the payment for your water/sewer bill drafted directly from your bank account each billing cycle. If you elect to take advantage of this service, and complete an Enrollment Form, your account will be automatically drafted on the due date shown on your water bill. No stamps, no trips to the Town Hall, no missed payments. **Best of all, it's free.**

Enrollment is simple! Just fill out an Enrollment Form and drop it off or mail it to the Water Resources Office with a voided check or deposit slip for the account you want us to draft.

In-Person Payments

We accept payments via cash, check, or money order. We do not accept credit or debit card payments at Town Hall at this time.

Credit Card/E-check Payments

When using this payment method, you will be charged a separate convenience fee. These fees will show up as a separate charge on your credit card or bank statement.

You may pay your bill through *ACI Payments, Inc.*, (*Official Payments*) which charges a flat fee for processing your payment. You will need your utility account information which can be found on your billing statement. You will need to enter the Town's jurisdiction number, 3963 - Town of River Bend and select water/sewer payment.

Another option to pay your bill is through *WIPP*. This payment feature also assesses a convenience fee- 2.95% for credit cards and \$1.50 for e-check payments. You will need your utility account information and your utility account PIN. You can find that information on your billing statement. This feature also allows you to set up autopay.

Telephone Payments (ACI Payments, Inc.)

Call 1-800-272-9829 and select option 3 for Property Tax and All Other Payments.

Enter the Town's jurisdiction number, 3963.

Press 1 to confirm the Town of River Bend.

Press 1 to make a water/sewer payment.

Enter your 5-6 digit River Bend account number followed by the pound key.

You will then be prompted to enter your information as well as your payment information.

Once the payment has been processed, you will be provided with a confirmation number for your payment.

Electronic Funds Transfer – Enrollment Form

Customer Information

(Please type or print clearly)

Customer Name: _____

Service Address: _____

Mailing Address (if different): _____

City: _____ State: _____ Zip: _____ Phone Number: _____

Utility Bill Account Number: _____

All utility bill payments for the above listed customer will be paid via direct draft from the account listed below. Any changes to or termination of this Authorization must be made in writing and received by the Town not less than thirty (30) days before the desired effective date of such change or termination. If the bank account is closed, notification must be made immediately to the Town.

Bank Information

Bank Name (as shown on your check/deposit slip): _____

Bank Address: _____ City/State/Zip: _____ Bank Phone
Number: _____

Bank Routing Number: _____ Bank Account Number: _____

A voided check must be attached to this form

You may want to verify, with your bank, the correct "electronic transfer routing number" for your account.

Authorization

I hereby authorize the Town of River Bend to collect any utility bills I owe by drafting payments from my account at the financial institution stated above. Further, I authorize the Bank to accept and to draft entries indicated by the Town from my account. In the event the Town drafts funds erroneously from my account, I authorize the Town to credit my account for an amount not to exceed the original amount of the erroneous draft, and I agree to hold the Town harmless for any other charges to my account that may occur as a result of such error. This authorization is to remain in full force and effect until the Town has received notice, in writing, of its termination.

Any transaction rejected by the bank for any reason other than bank error will be treated as a returned check and charged a \$25.00 fee.

Signature of Customer (as accepted by your bank)

Date

Completed forms should be mailed to or dropped off at the Water Resources Office.

Total	<u>42,000</u>

Authorized Expenditures:

Transfer to Sewer Operations Fund	42,000
Future Expansion & Debt Service	0
Total	42,000

Section 8. Levy of Taxes

There is hereby levied a tax at the rate of thirty cents (\$0.30) per one hundred dollars (\$100) valuation of property as listed for taxes as of January 1, 2026, for the purpose of raising the revenue listed as "Ad Valorem Taxes 2026-2027" in the General Fund Section 1 of this ordinance. This rate is based on a valuation of \$419,400,000 for purposes of taxation of real and personal property with an estimated rate of collection of 99.67%. The estimated collection rate is based on the fiscal year 2024-2025 collection rate of 99.67% by Craven County who has been contracted to collect real and personal property taxes for the Town of River Bend. Also included is a valuation of \$51,000,000 for purposes of taxation of motor vehicles with a collection rate of 100% by the North Carolina Vehicle Tax System.

Section 9. Fees and Charges

There is hereby established, for Fiscal Year 2026-2027, various fees and charges as contained in Attachment A of this document.

Section 10. Special Authorization of the Budget Officer

- A. The Budget Officer shall be authorized to reallocate any appropriations within departments.
- B. The Budget Officer shall be authorized to execute interfund and interdepartmental transfers in emergency situations. Notification of all such transfers shall be made to the Town Council at its next meeting following the transfer.
- C. The Budget Officer shall be authorized to execute interdepartmental transfers in the same fund, including contingency appropriations, not to exceed \$5,000. Notification of all such transfers shall be made to the Town Council at its next meeting following the transfer.

Section 11. Classification and Pay Plan

Cost of Living Adjustment (COLA) for all Town employees shall be 2.2% and shall begin the first payroll in the new fiscal year. The Town Manager is hereby authorized to grant merit increases to Town employees, when earned, per the approved Pay Plan.

Section 12. Utilization of the Budget Ordinance

This ordinance shall be the basis of the financial plan for the Town of River Bend municipal government during the 2026-2027 fiscal year. The Budget Officer shall administer the Annual Operating Budget and shall ensure the operating staff and officials are provided with guidance and sufficient details to implement their appropriate portion of the budget.

Section 13. Copies of this Budget Ordinance

Copies of this Budget Ordinance shall be furnished to the Clerk, Town Council, Budget Officer and Finance Officer to be kept on file by them for their direction in the disbursement of funds.

Adopted this 16th day of July, 2026.

Mark Bledsoe, Mayor

Attest:

Kristie J. Nobles, Town Clerk, MMC, NCCMC
